Marvel Comics proudly presents the 175th issue starring our Jade Giantess--the sometimes savage, incidentally immortal, rarely red but always sensational...

She- HULK

Previously...

Jennifer Walters was a shy attorney when she was gunned down by criminals. A blood transfusion from her cousin, Bruce Banner, A.K.A. the Hulk, gave her a second chance at life, as well as super-strength and bulletproof green skin.

Jen and Jack of Hearts are struggling to find some normalcy in their relationship now that Jack's powers are back in full force. But relationship drama had to take a back seat for some good, old-fashioned super-heroing! Helping the Fantastic Four run security for a top-secret government lab, She-Hulk found herself facing off against a mysterious new villain. Being able to stand up to She-Hulk is a feat few can claim. Being able to throw her out a window all while spouting off some cocky banter is another thing entirely.

Reed--
it's Jen
again.

You know,
when you call
me, I call you
back!

That's
how *Friendship*
works. And it's also
just--*professional*
courtesy? Among
colleagues?

**JENNIFER WALTERS,
SHE-HULK.**

Attorney-at-law. Nobody
pushes this girl around.

(Except for that guy last
issue who pushed her
through a six-story window.
She's still not over that.)

Call me,
Reed. Please.
Today.

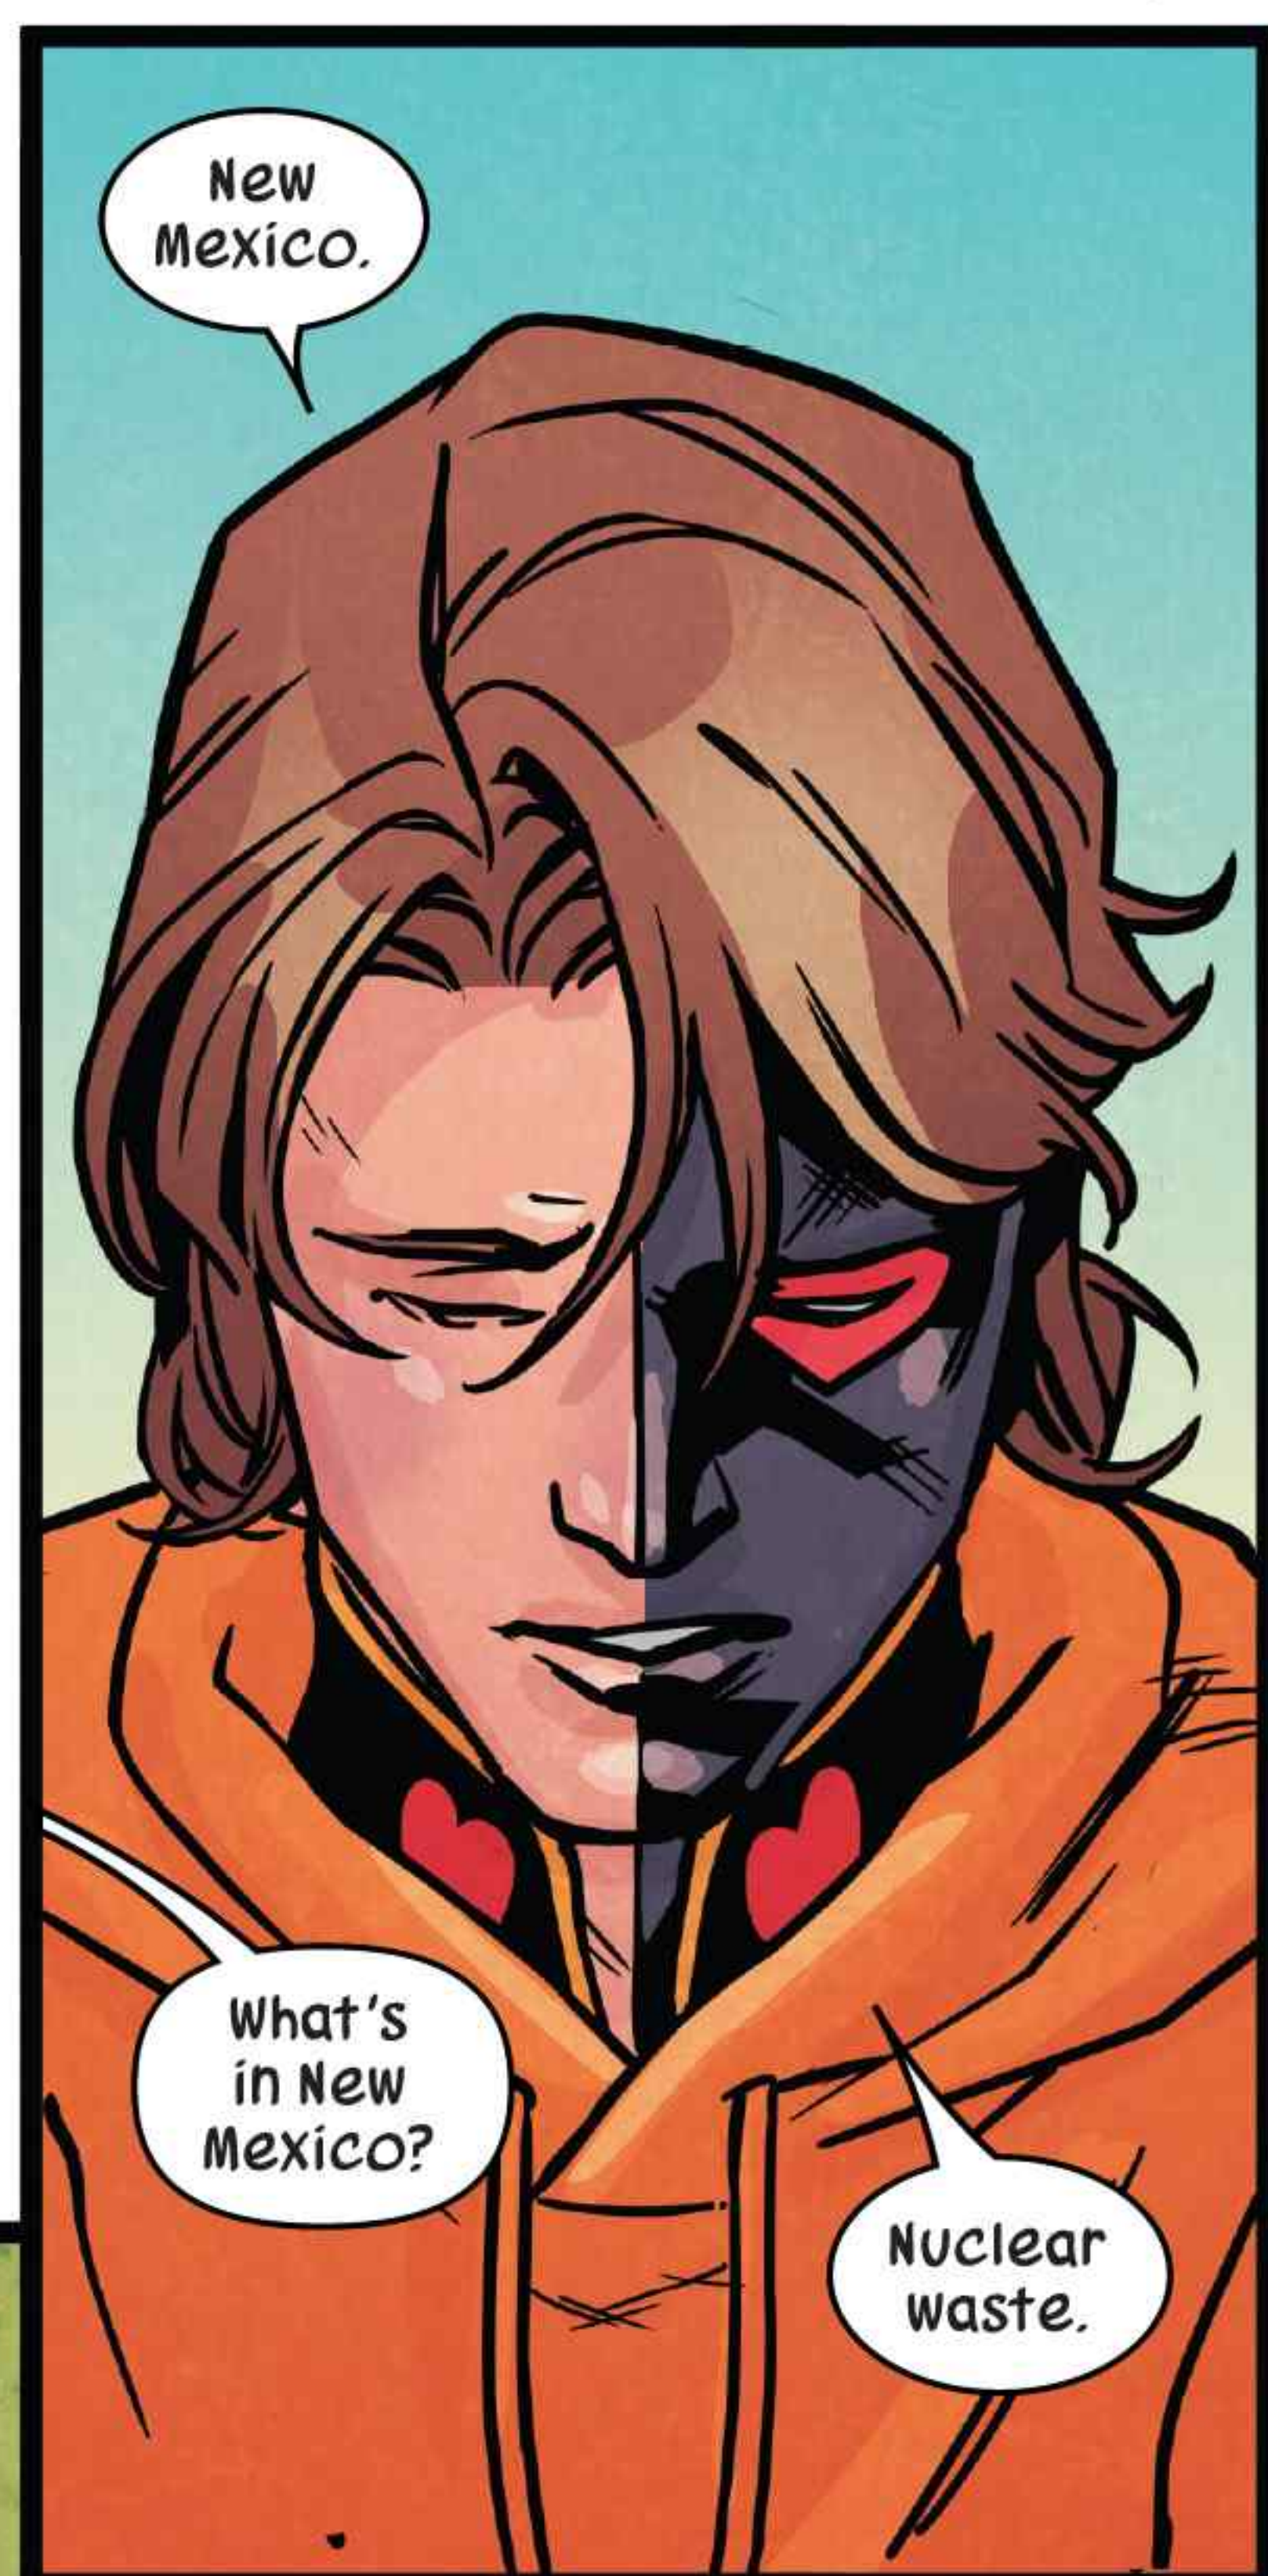

**JONATHAN HART,
JACK OF HEARTS.**

Sophomore poetry major.

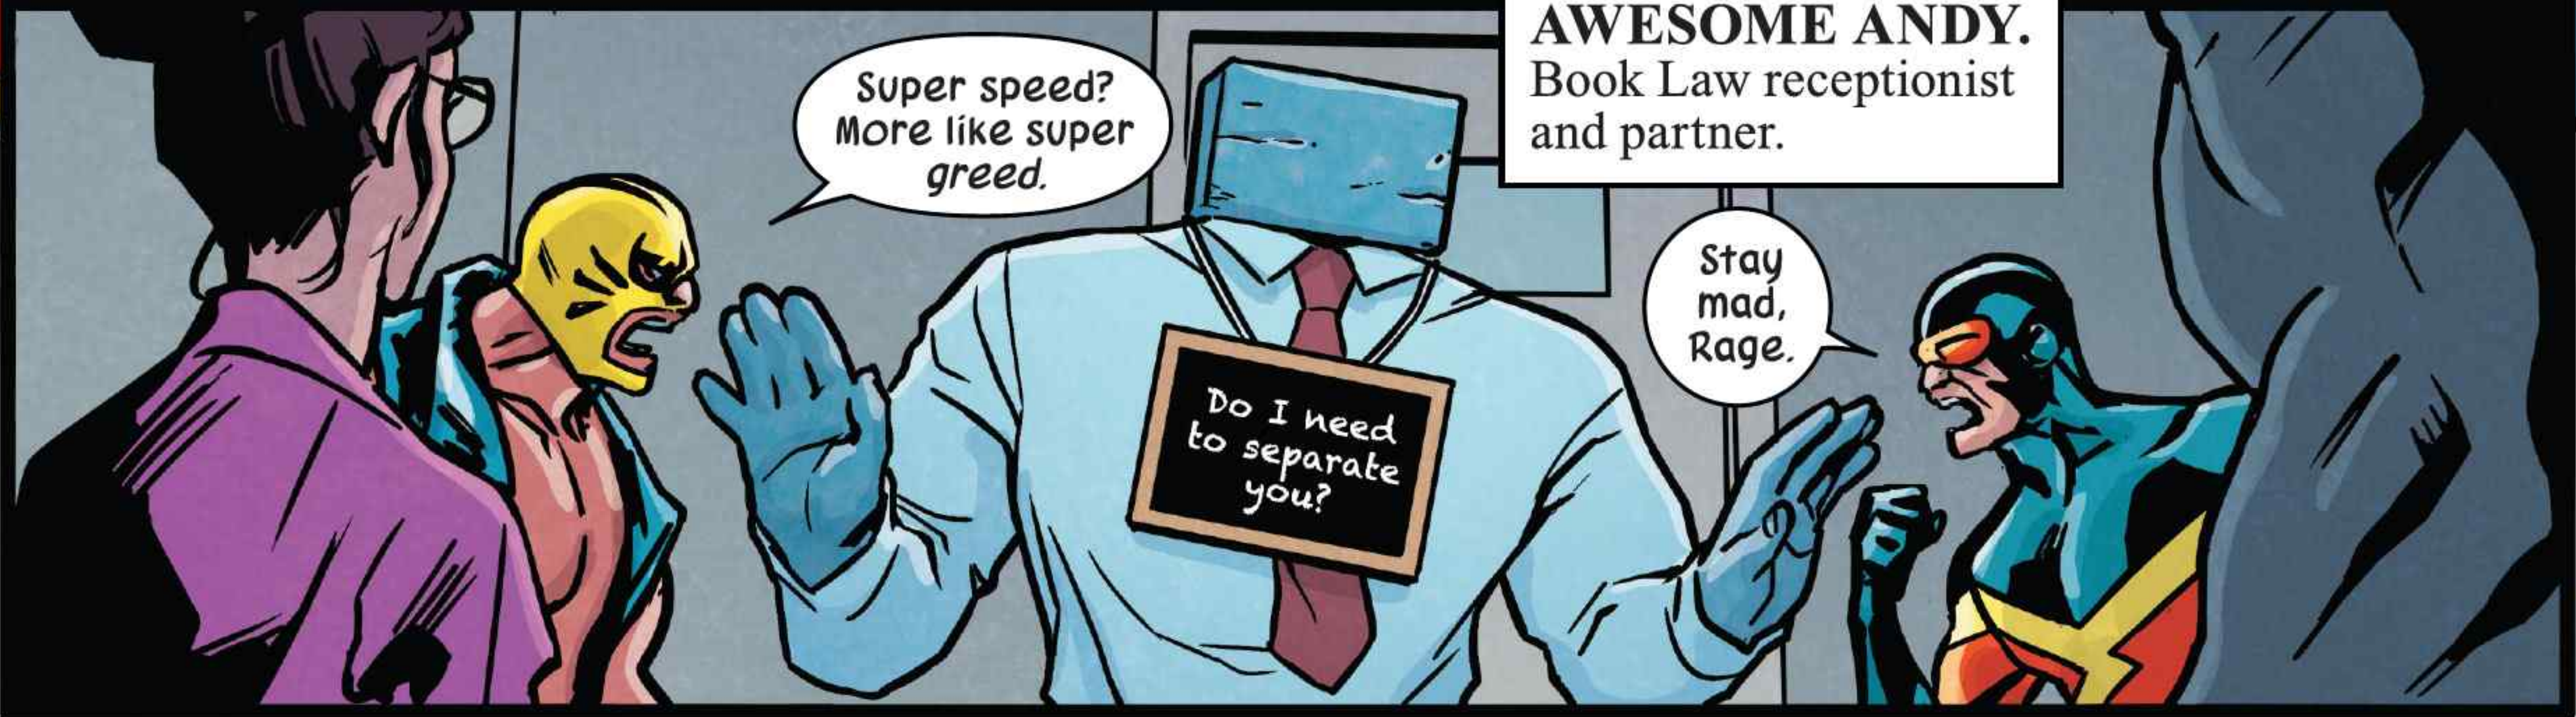

Hello,
beautiful.

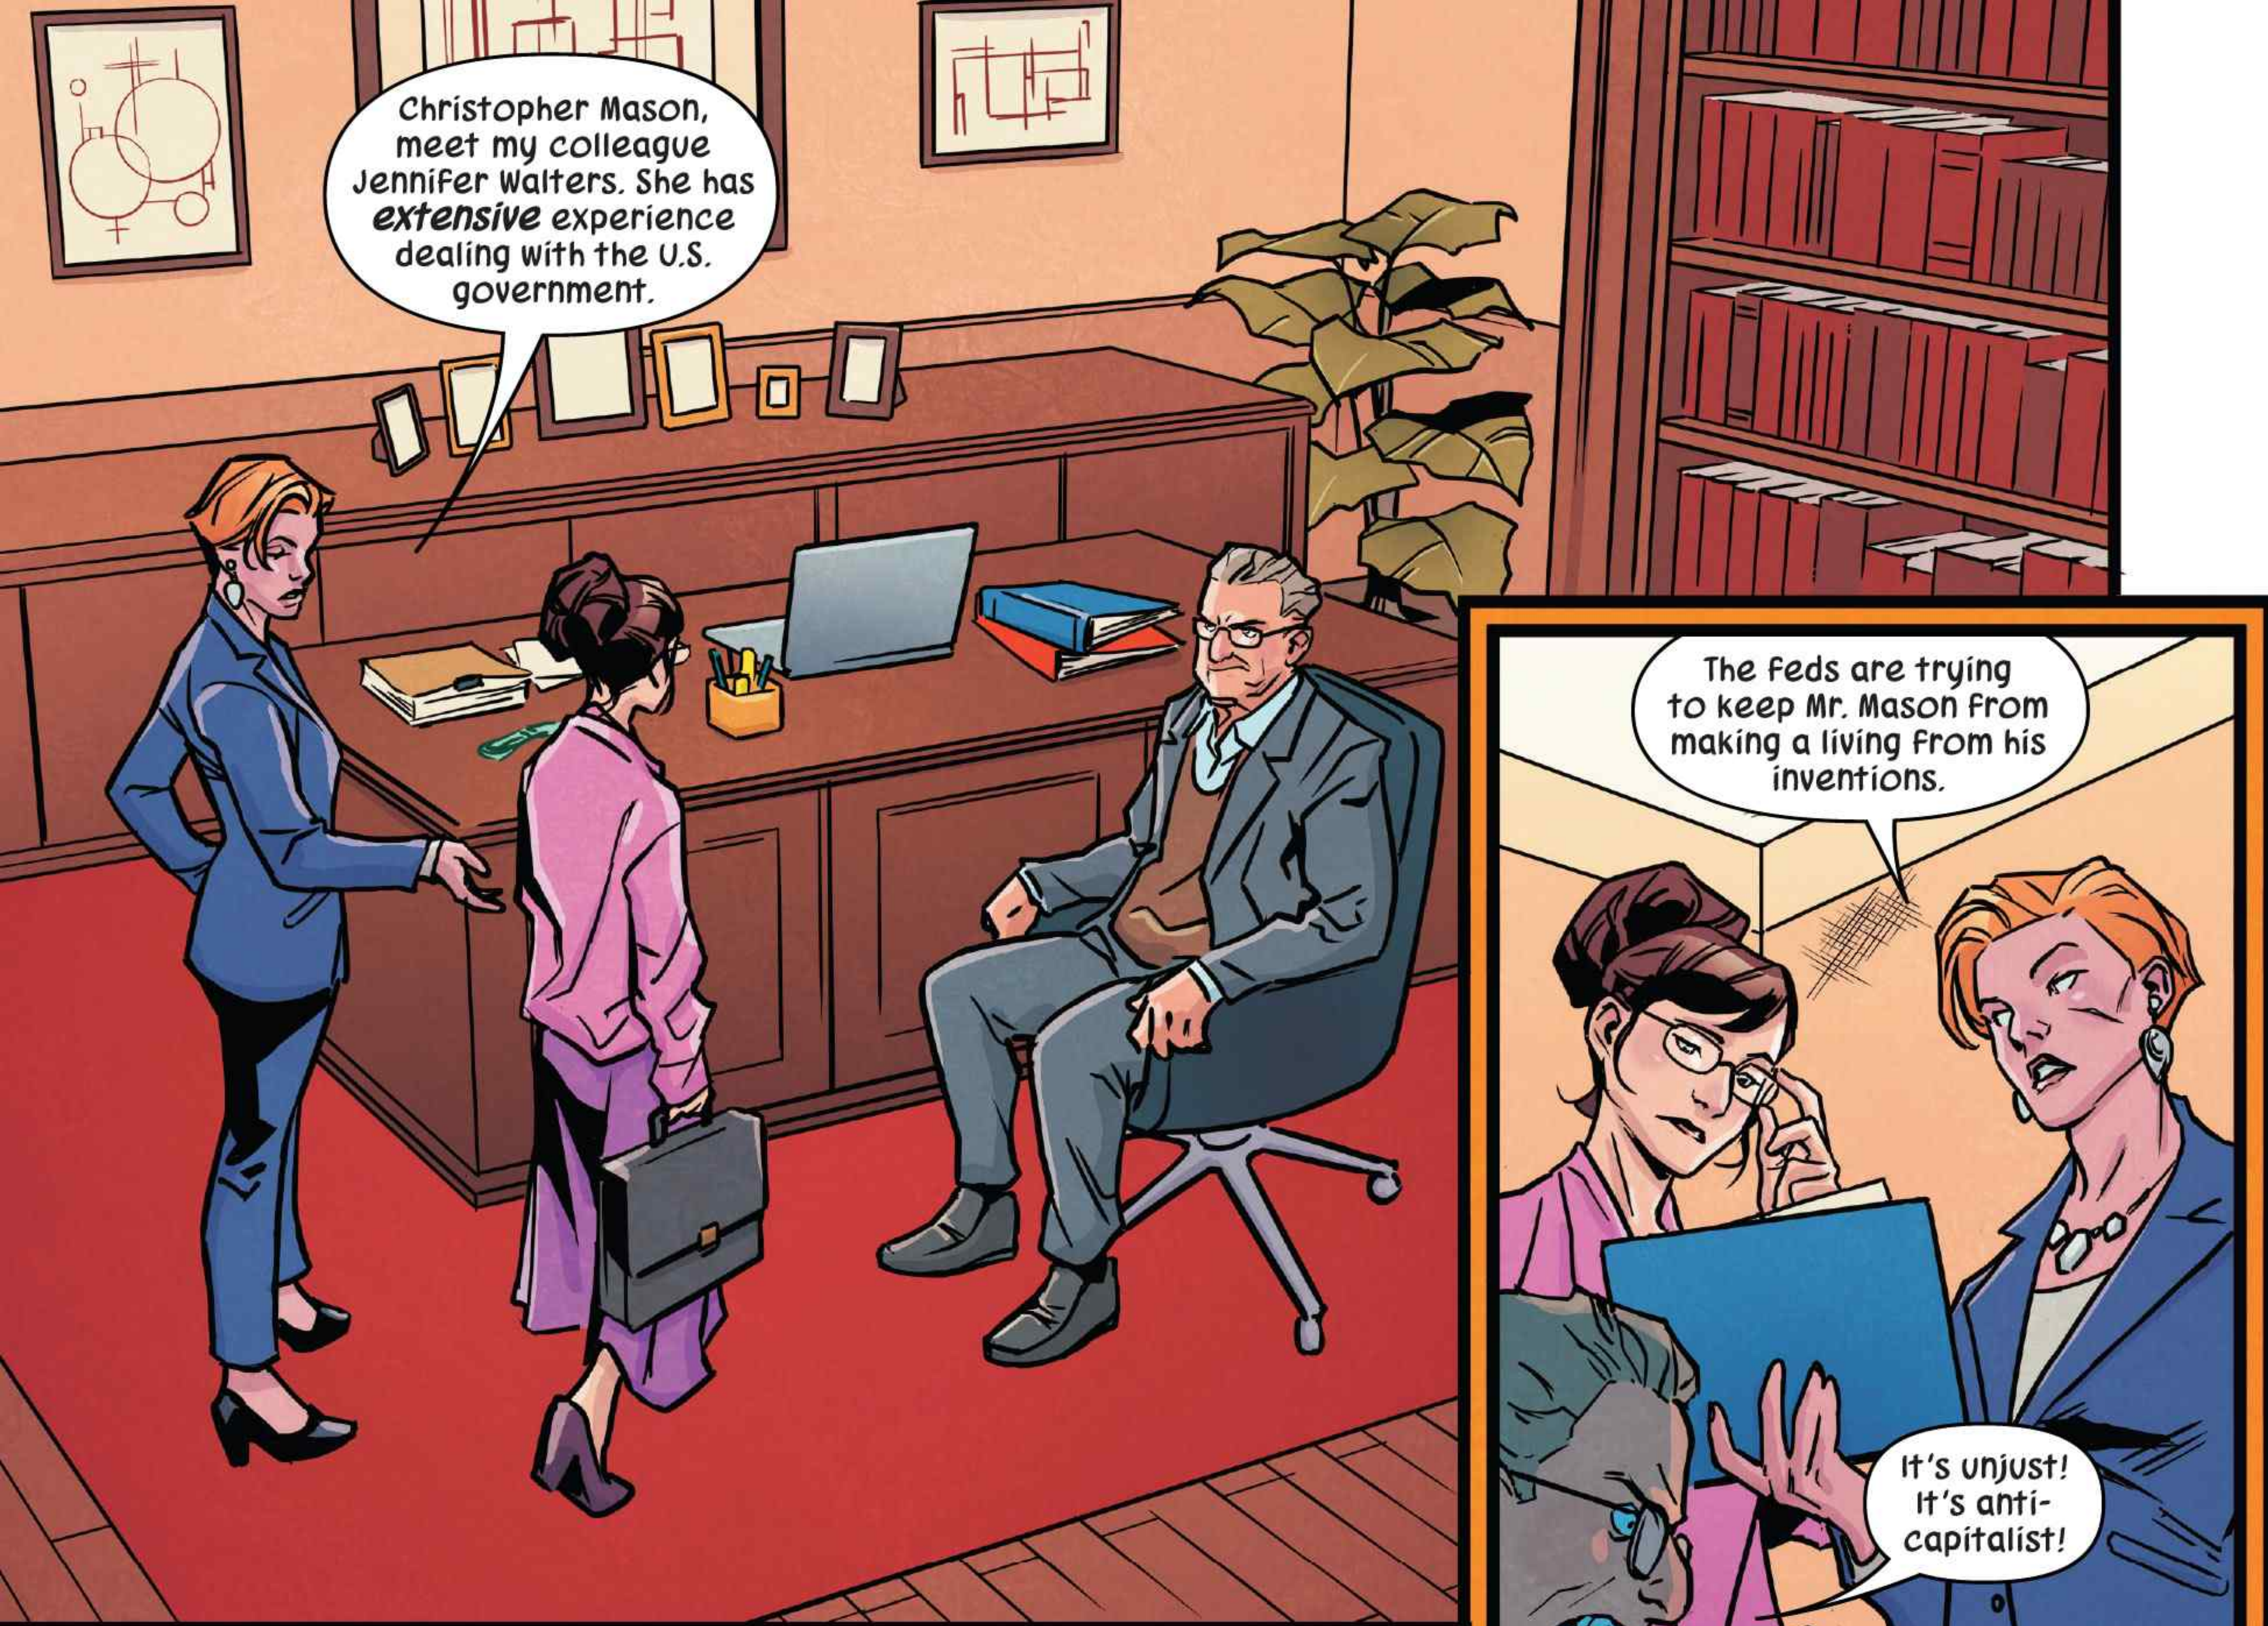

Hi...

**BOOK LAW
OFFICE.**

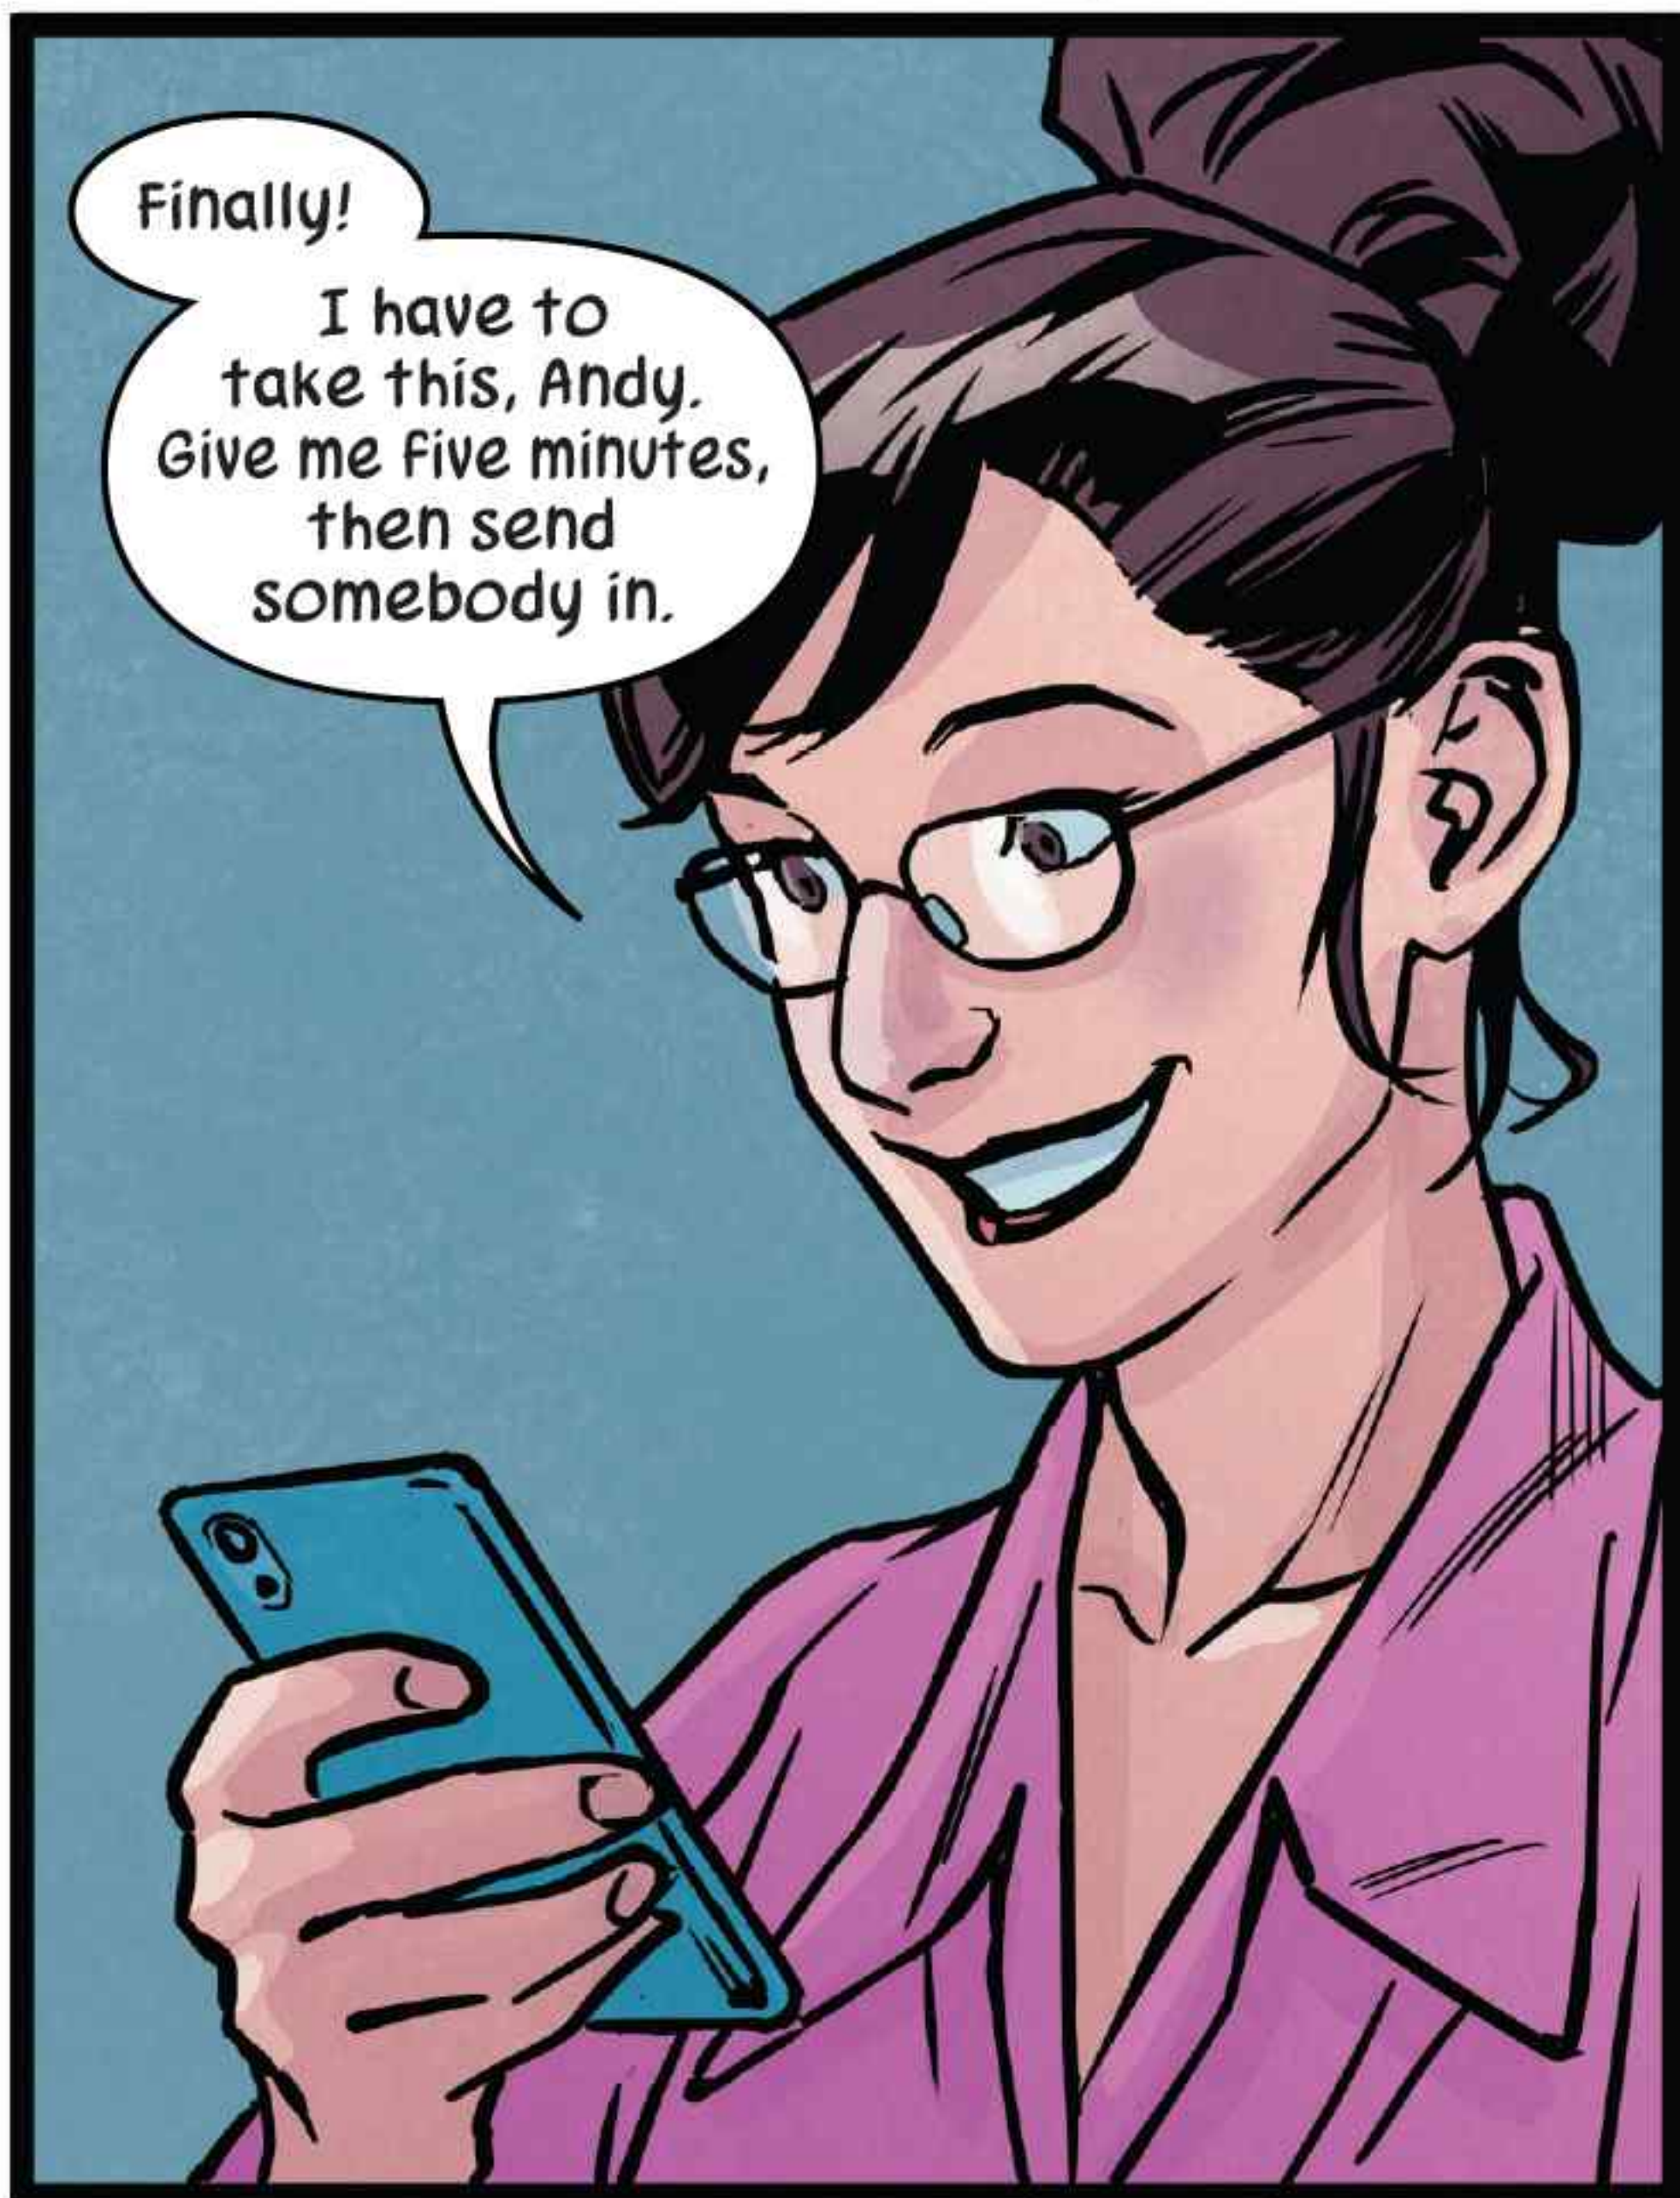

Andy,
who's my next
appointment?

Vivaldi's
"Four Seasons."

Finally!
I have to
take this, Andy.
Give me five minutes,
then send
somebody in.

Reed!
I thought you
were never going
to call me
back.

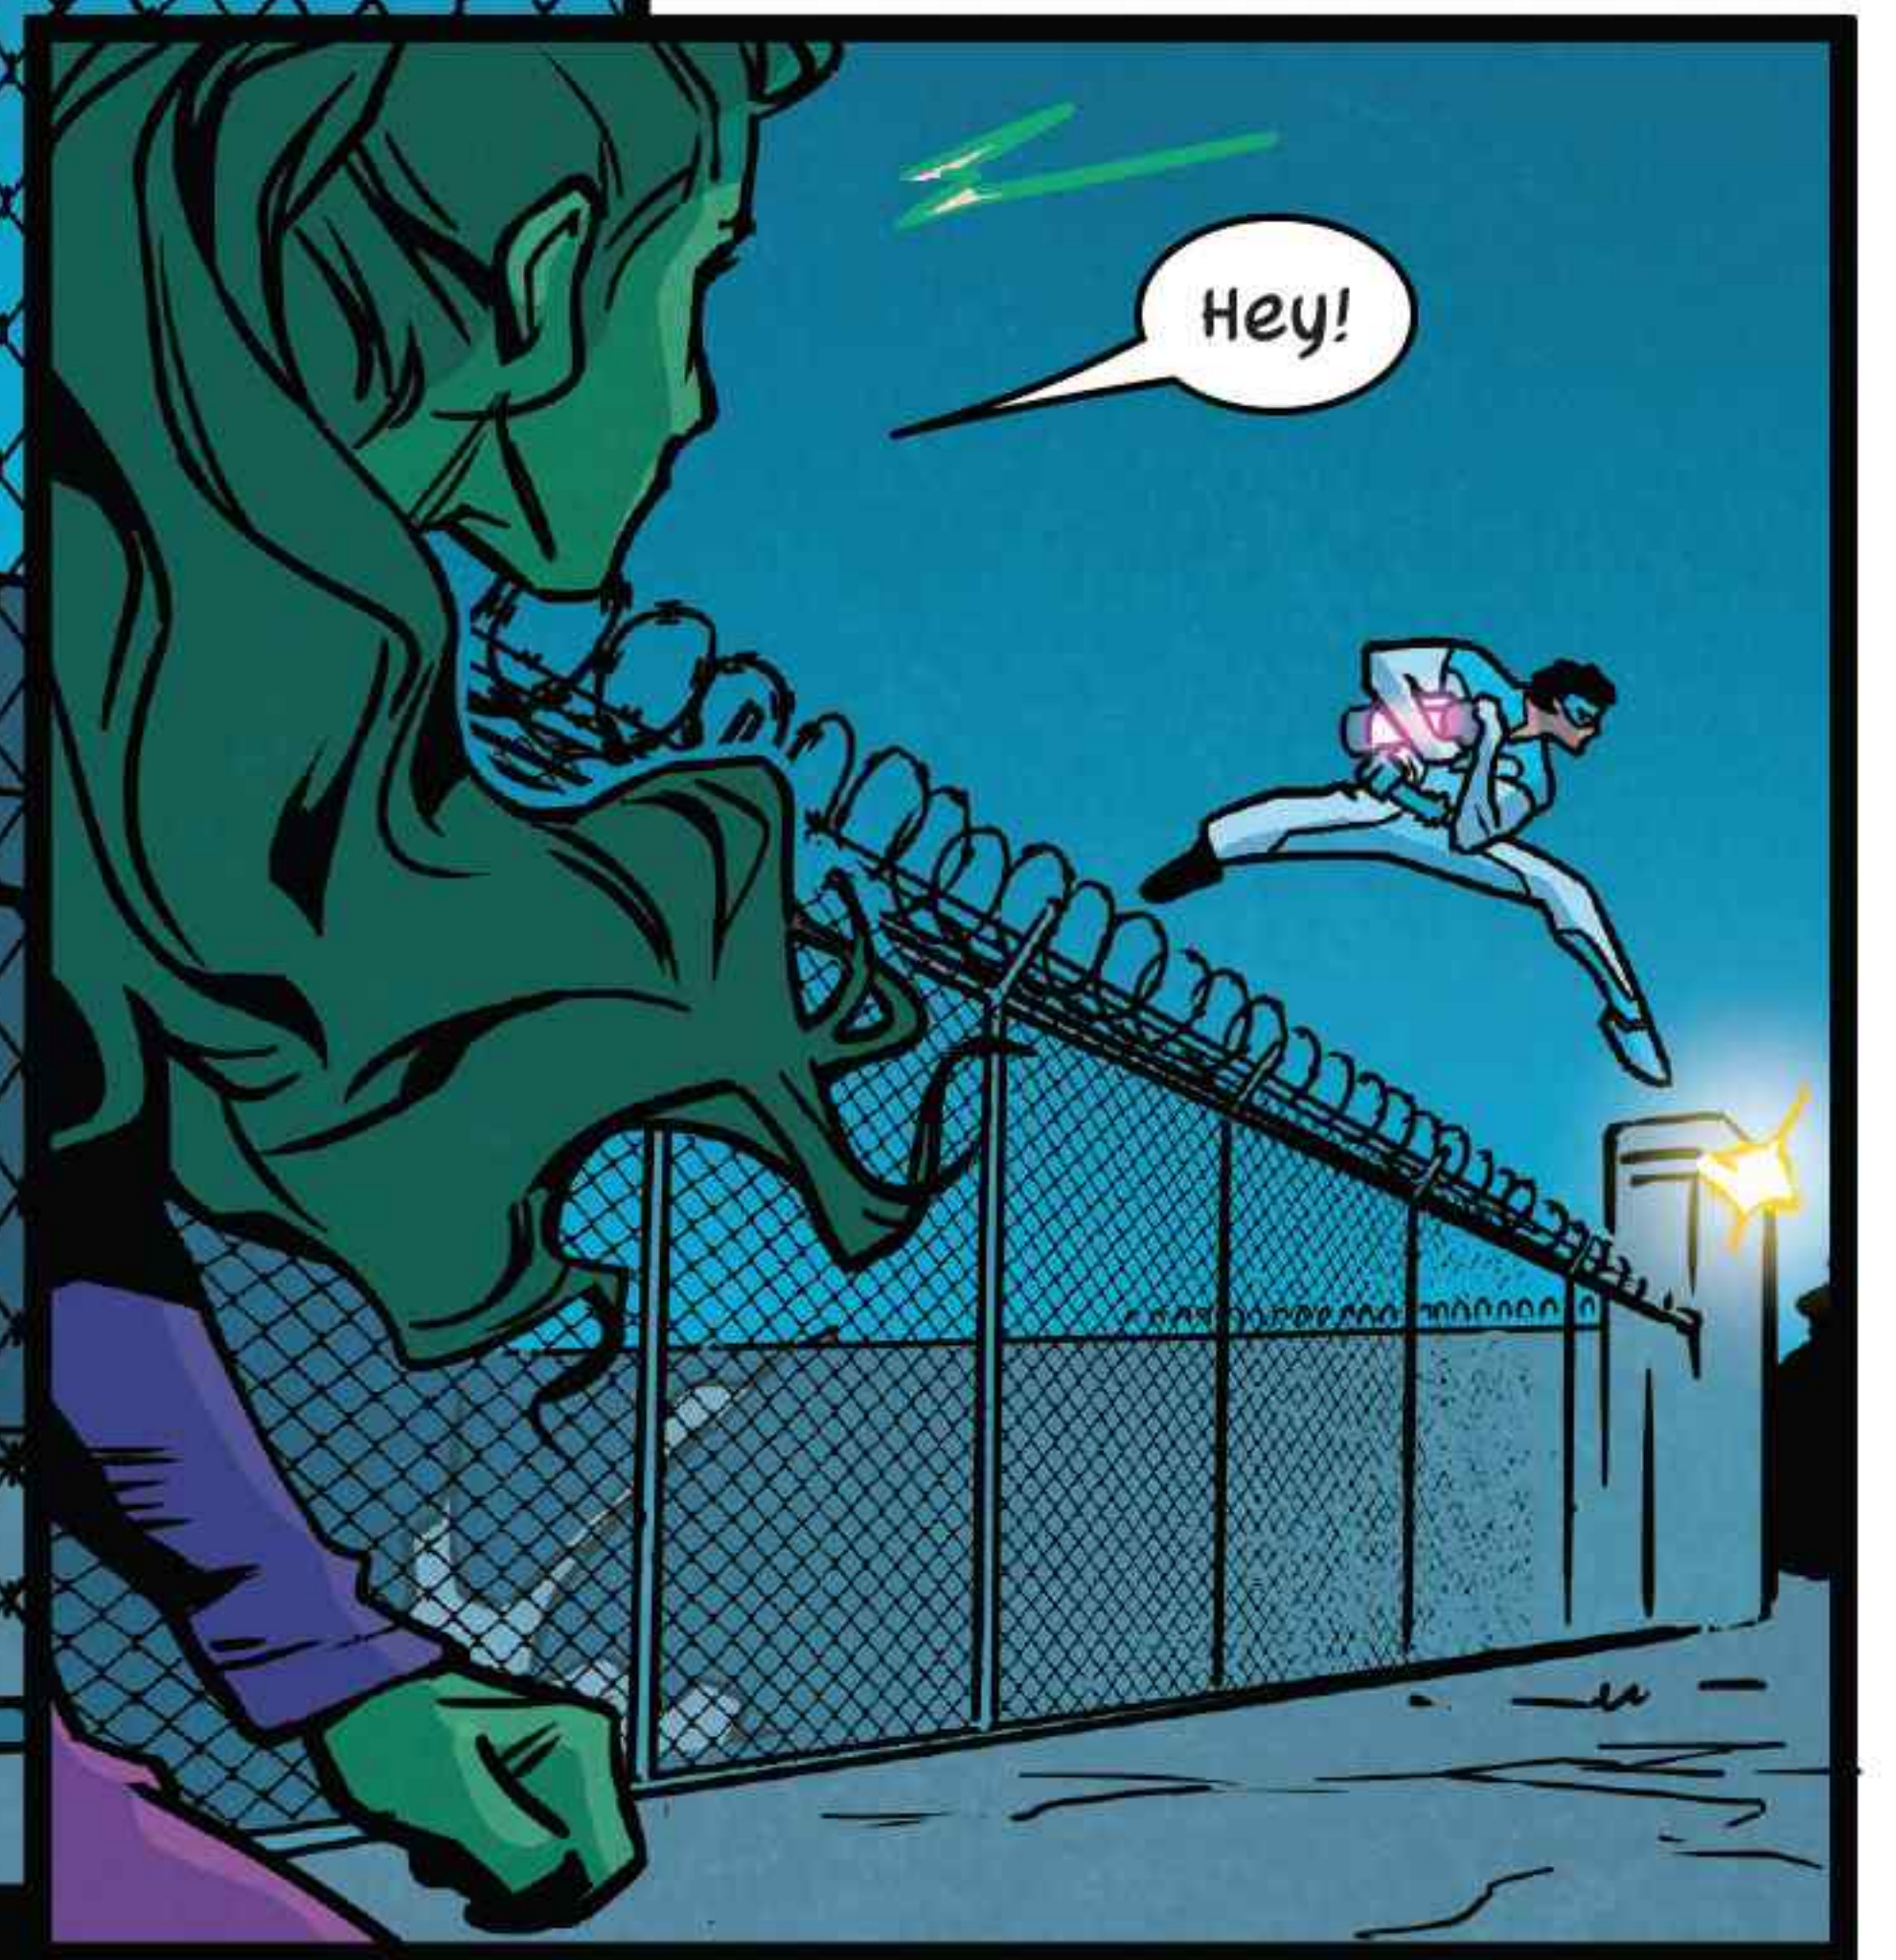

**REED RICHARDS,
MISTER FANTASTIC.**
Not so fantastic at phone calls.

Sue said
I had to.

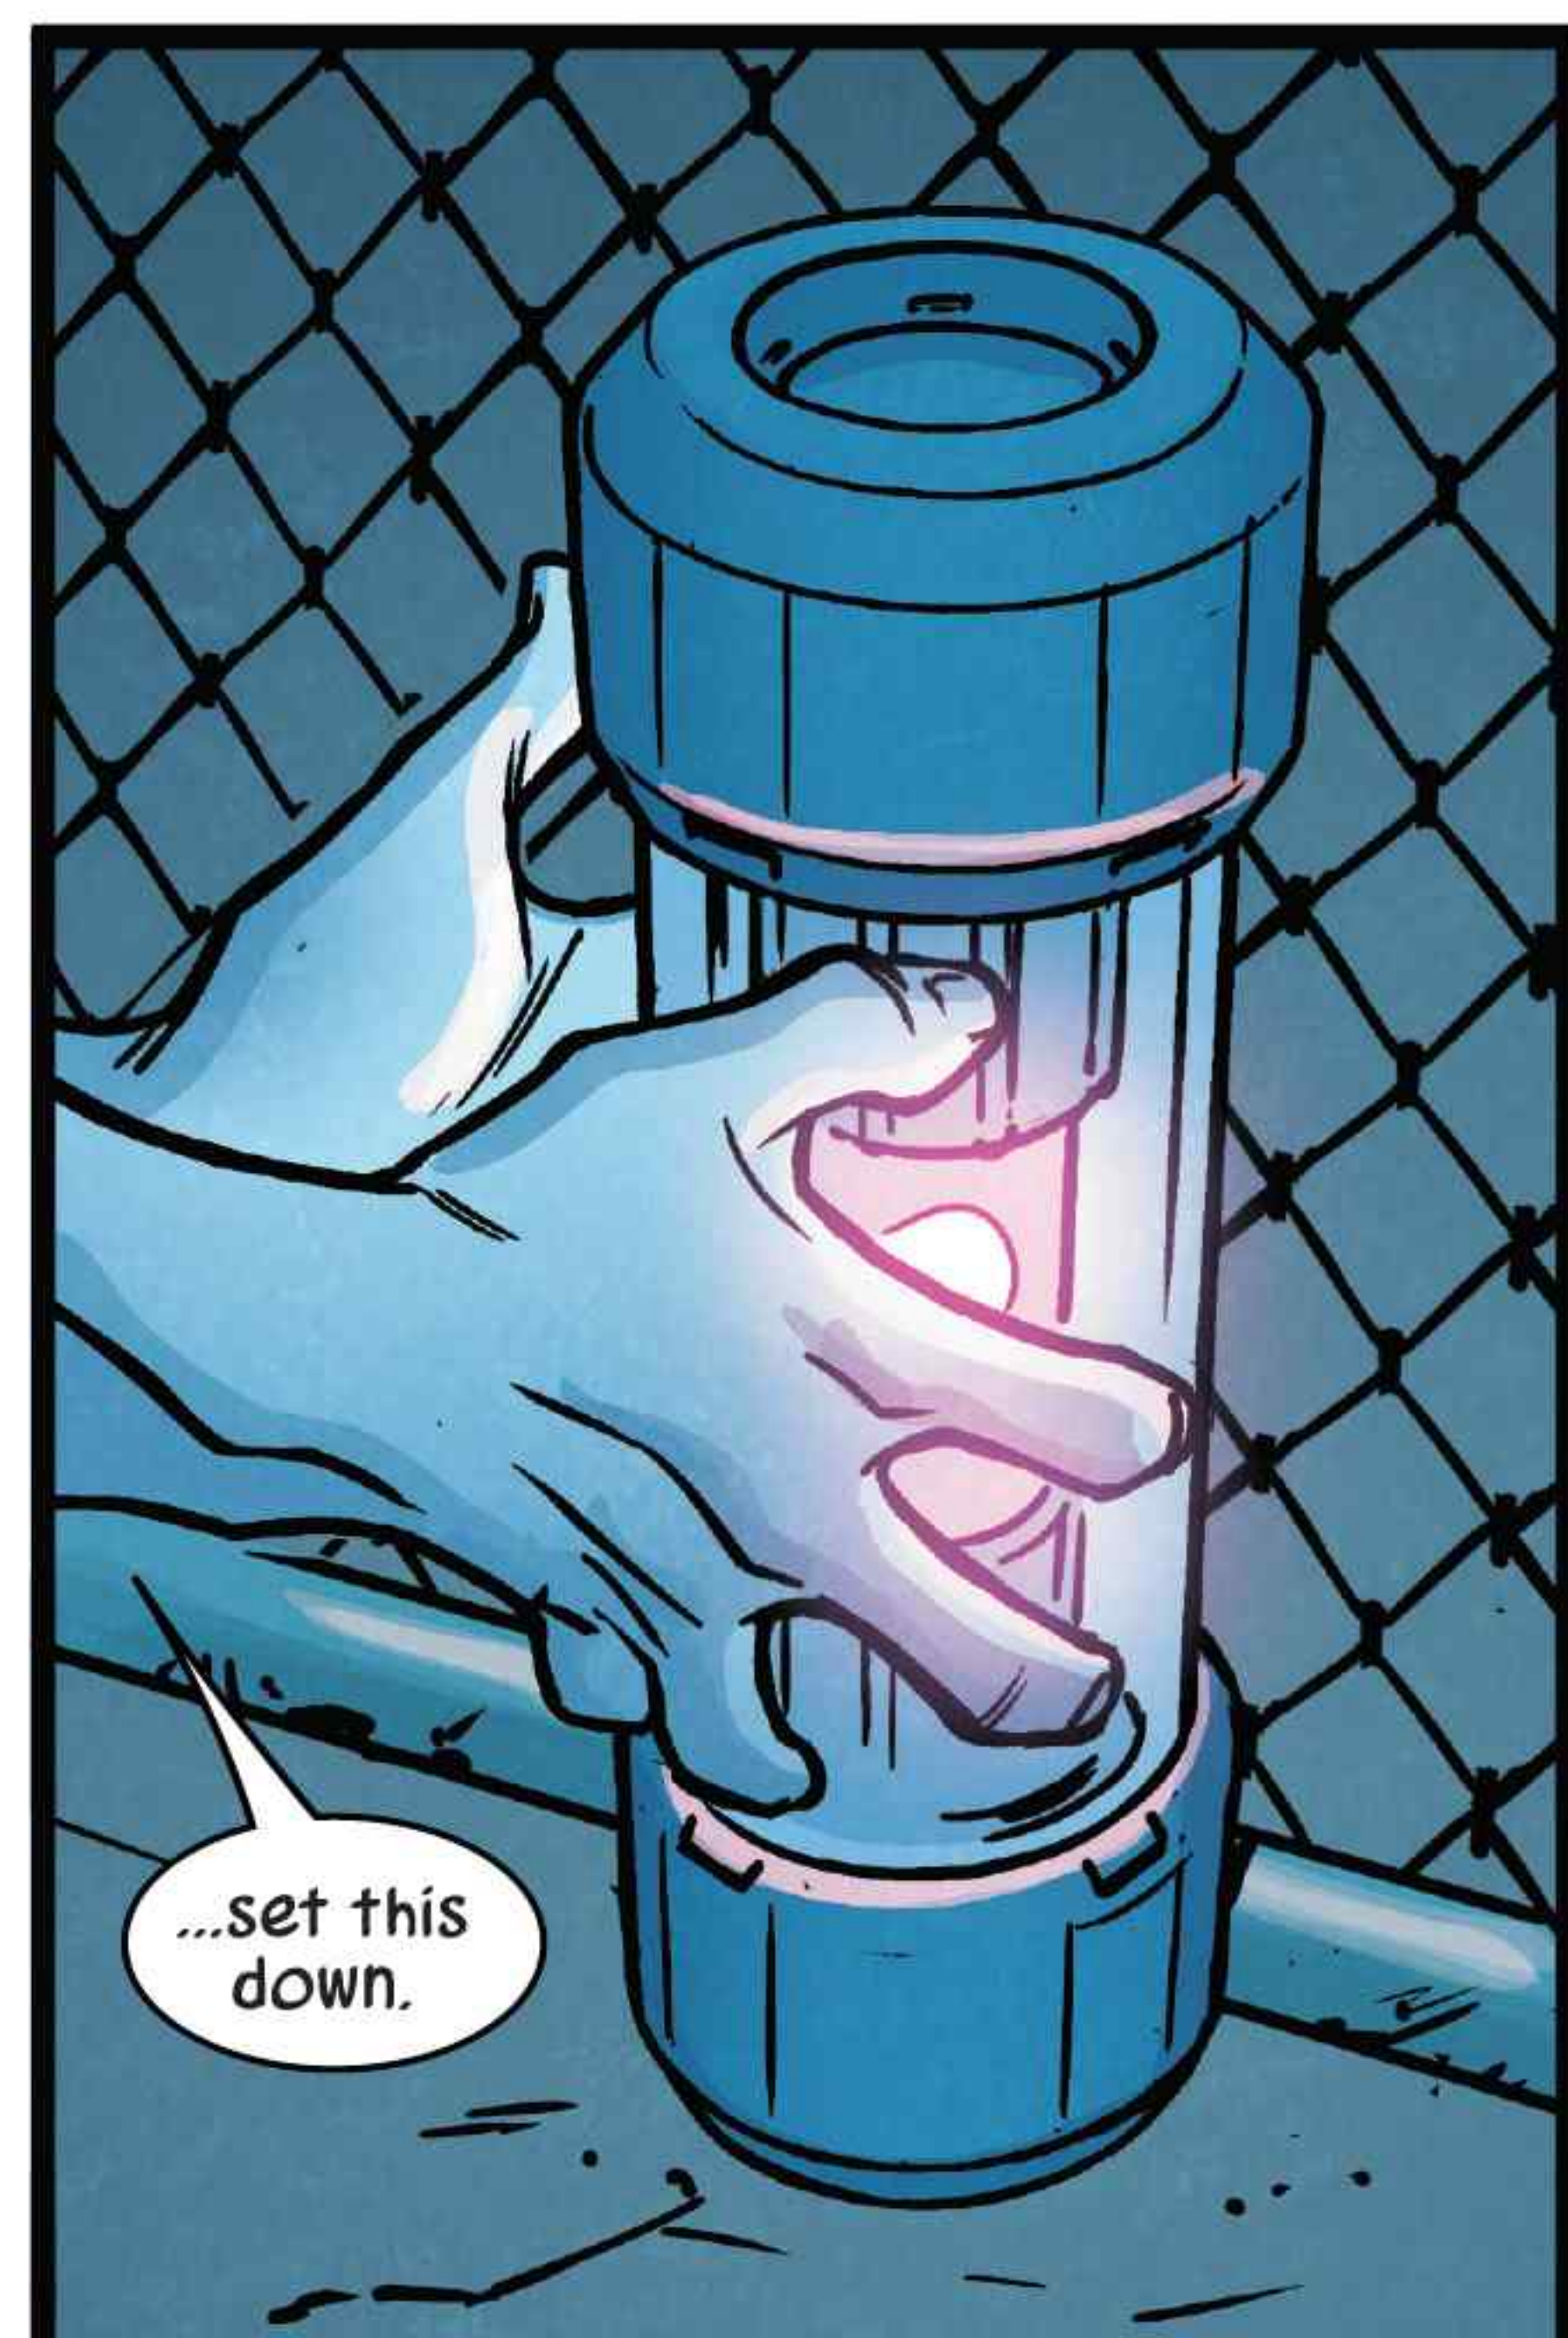

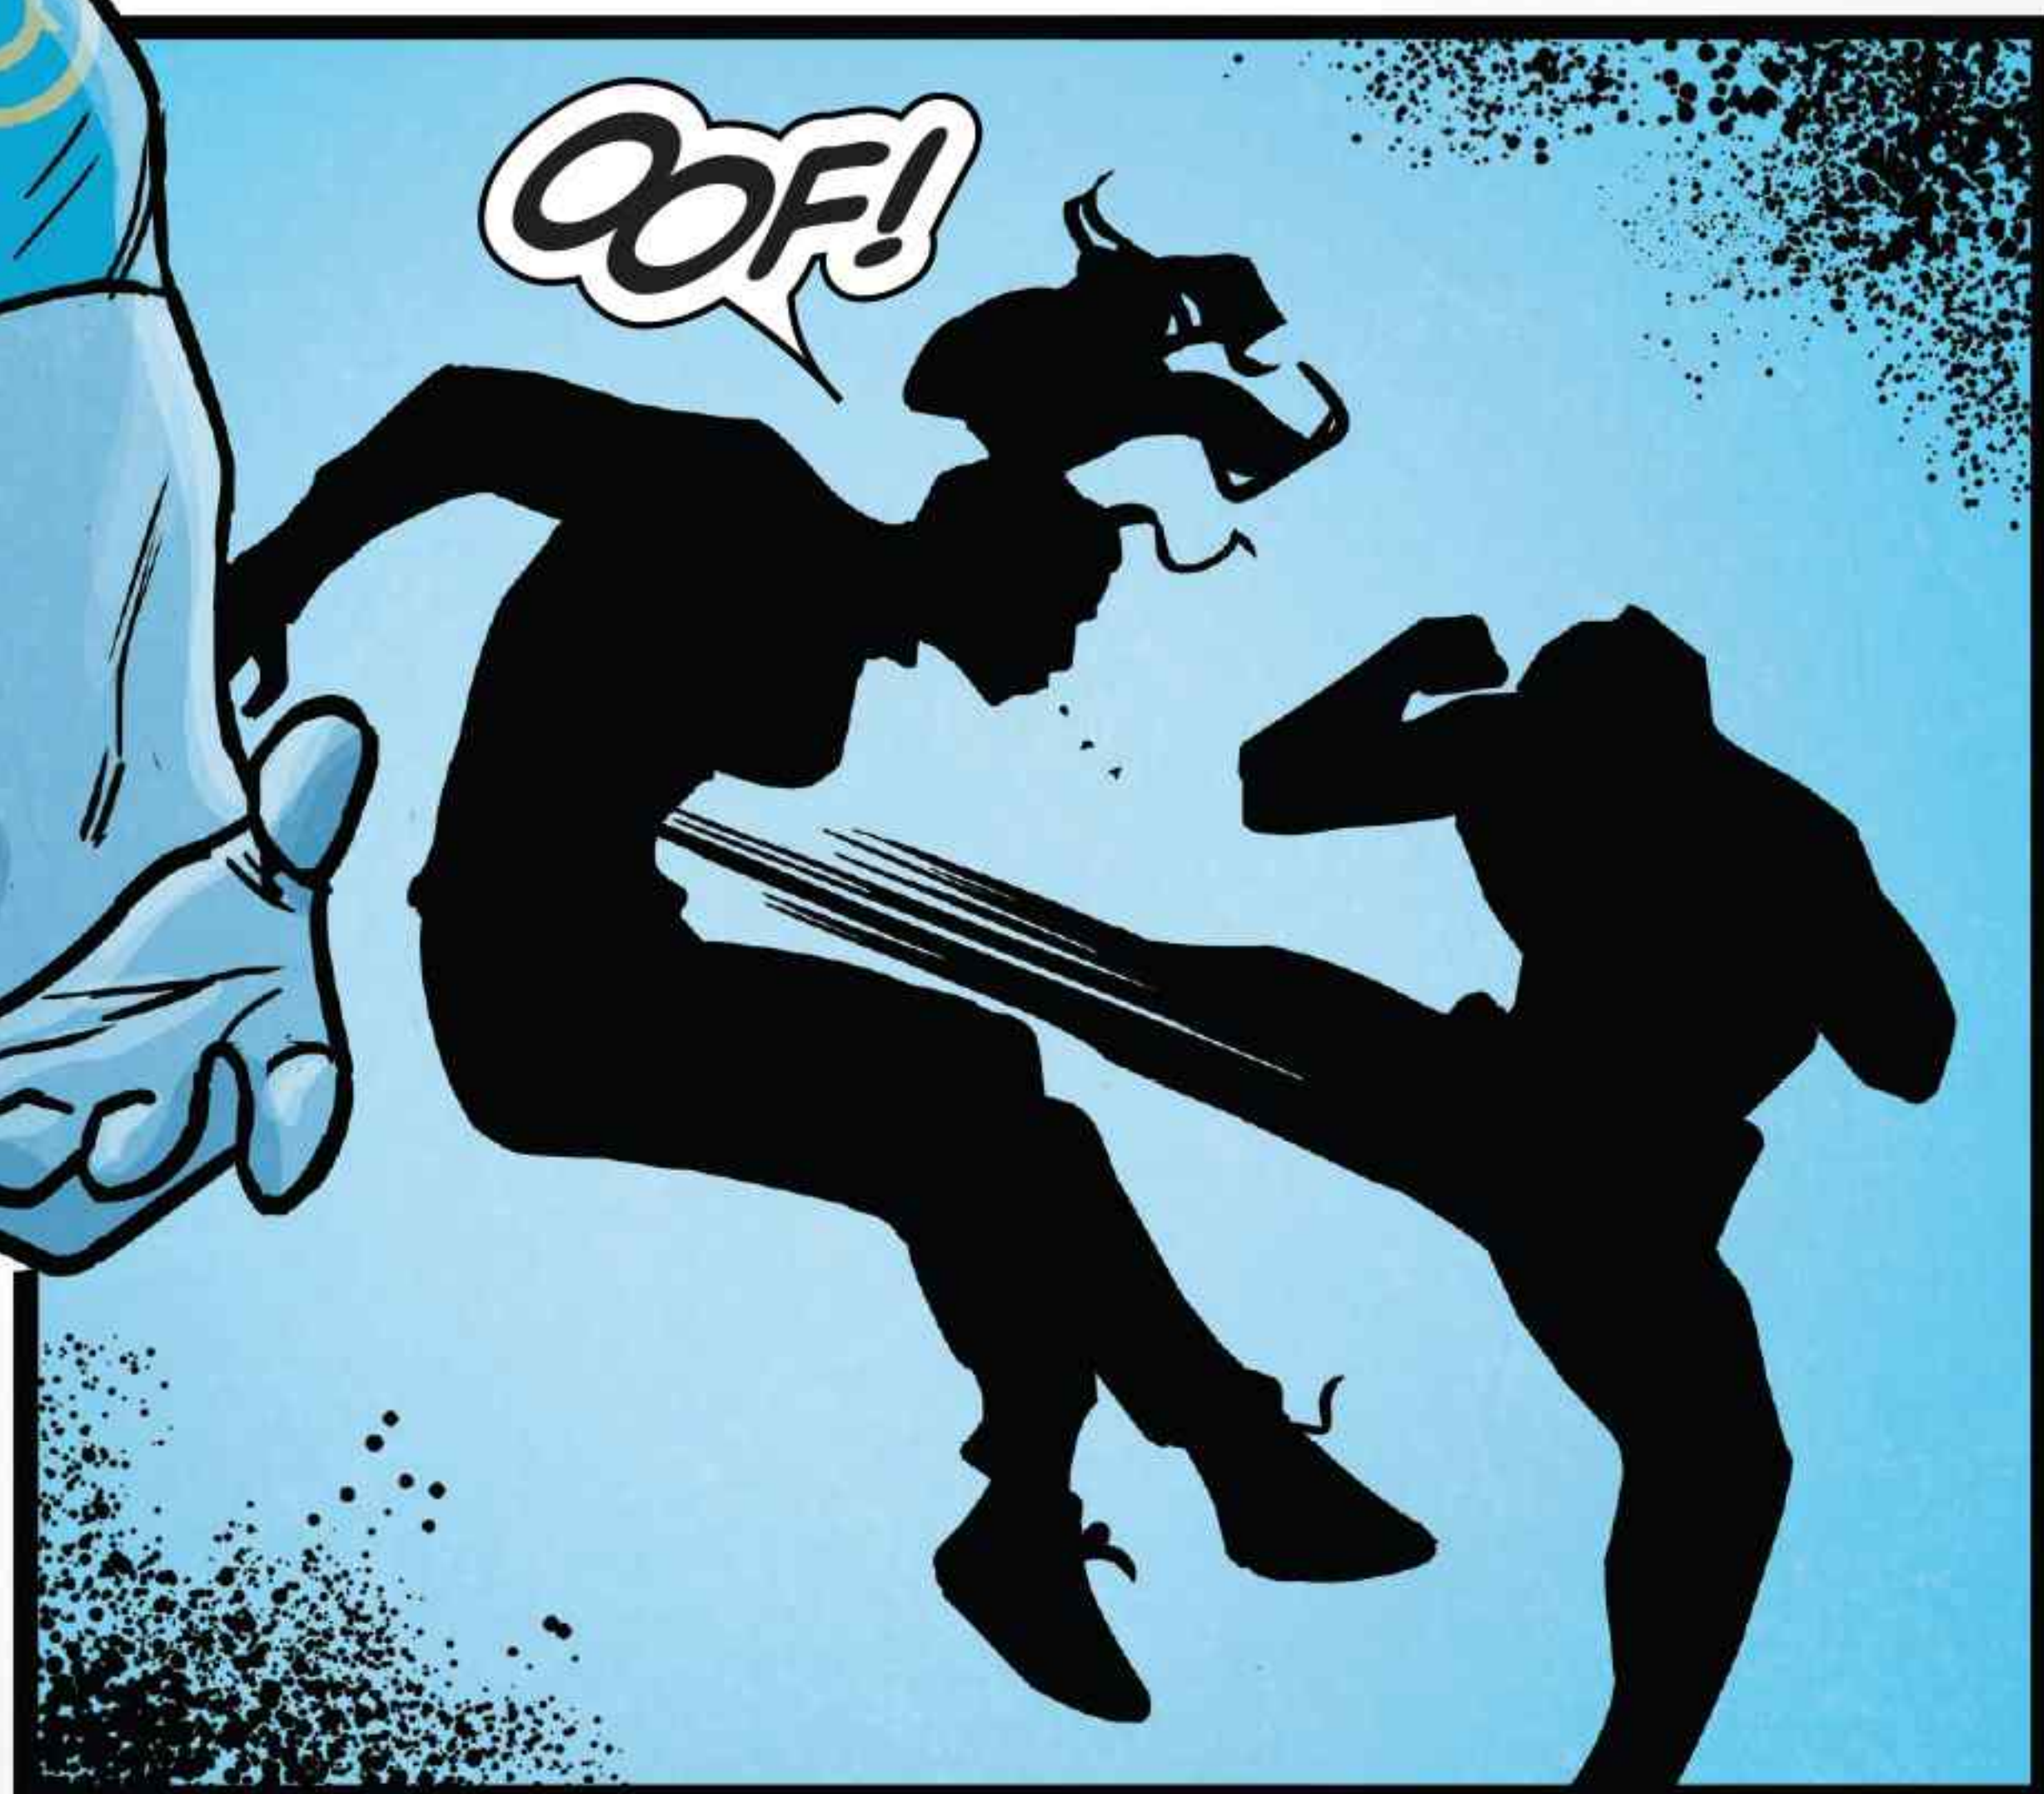

When you spend your life enforcing the rules, you never get good at break-ins.

I could just Hulk-jump over it, but there's no such thing as a stealth Hulk jump...

Not just strong...

...invulnerable.

FWUP

Powerful beyond belief.

NFF. HOW?

Magic.

I'll find your weakness.

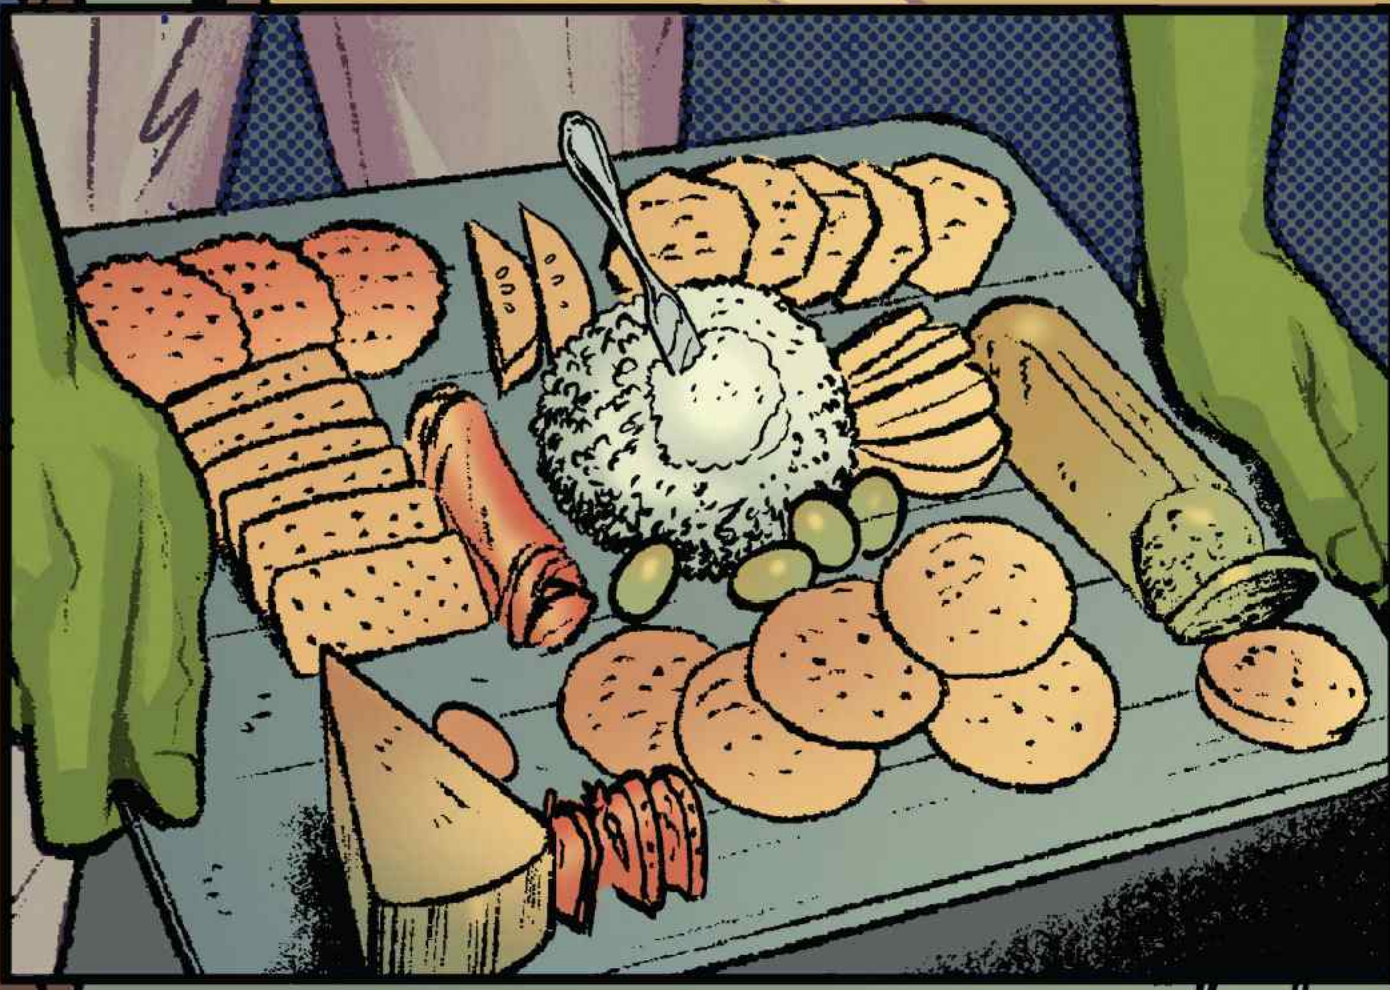

Might take a while. Hope you have nights free.

CONTINUED!**

She-Hulk and Friends in:
"The First Rule of Book Club Is..."

RAINBOW ROWELL - writer
JOE QUINONES - artist
BRYAN VALENZA & DEE CUNIFFE - color artists
VC's JOE CARAMAGNA - letterer

JENNIFER WALTERS, SHE-HULK.
Attorney, Avenger... A little nervous at the moment.

DING DONG

JANET VAN DYNE, THE WASP.
One of Jen's oldest friends and the person lending her this fabulous apartment.

PATSY WALKER, HELLCAT.

Jen's best friend. A regular in these parts.

It's book club, Patsy. *Book.*

First rule of book club, Jen-- chardonnay!

I think the First--and maybe *only*--rule of book club is "Read the book."

Jan! I brought wine!

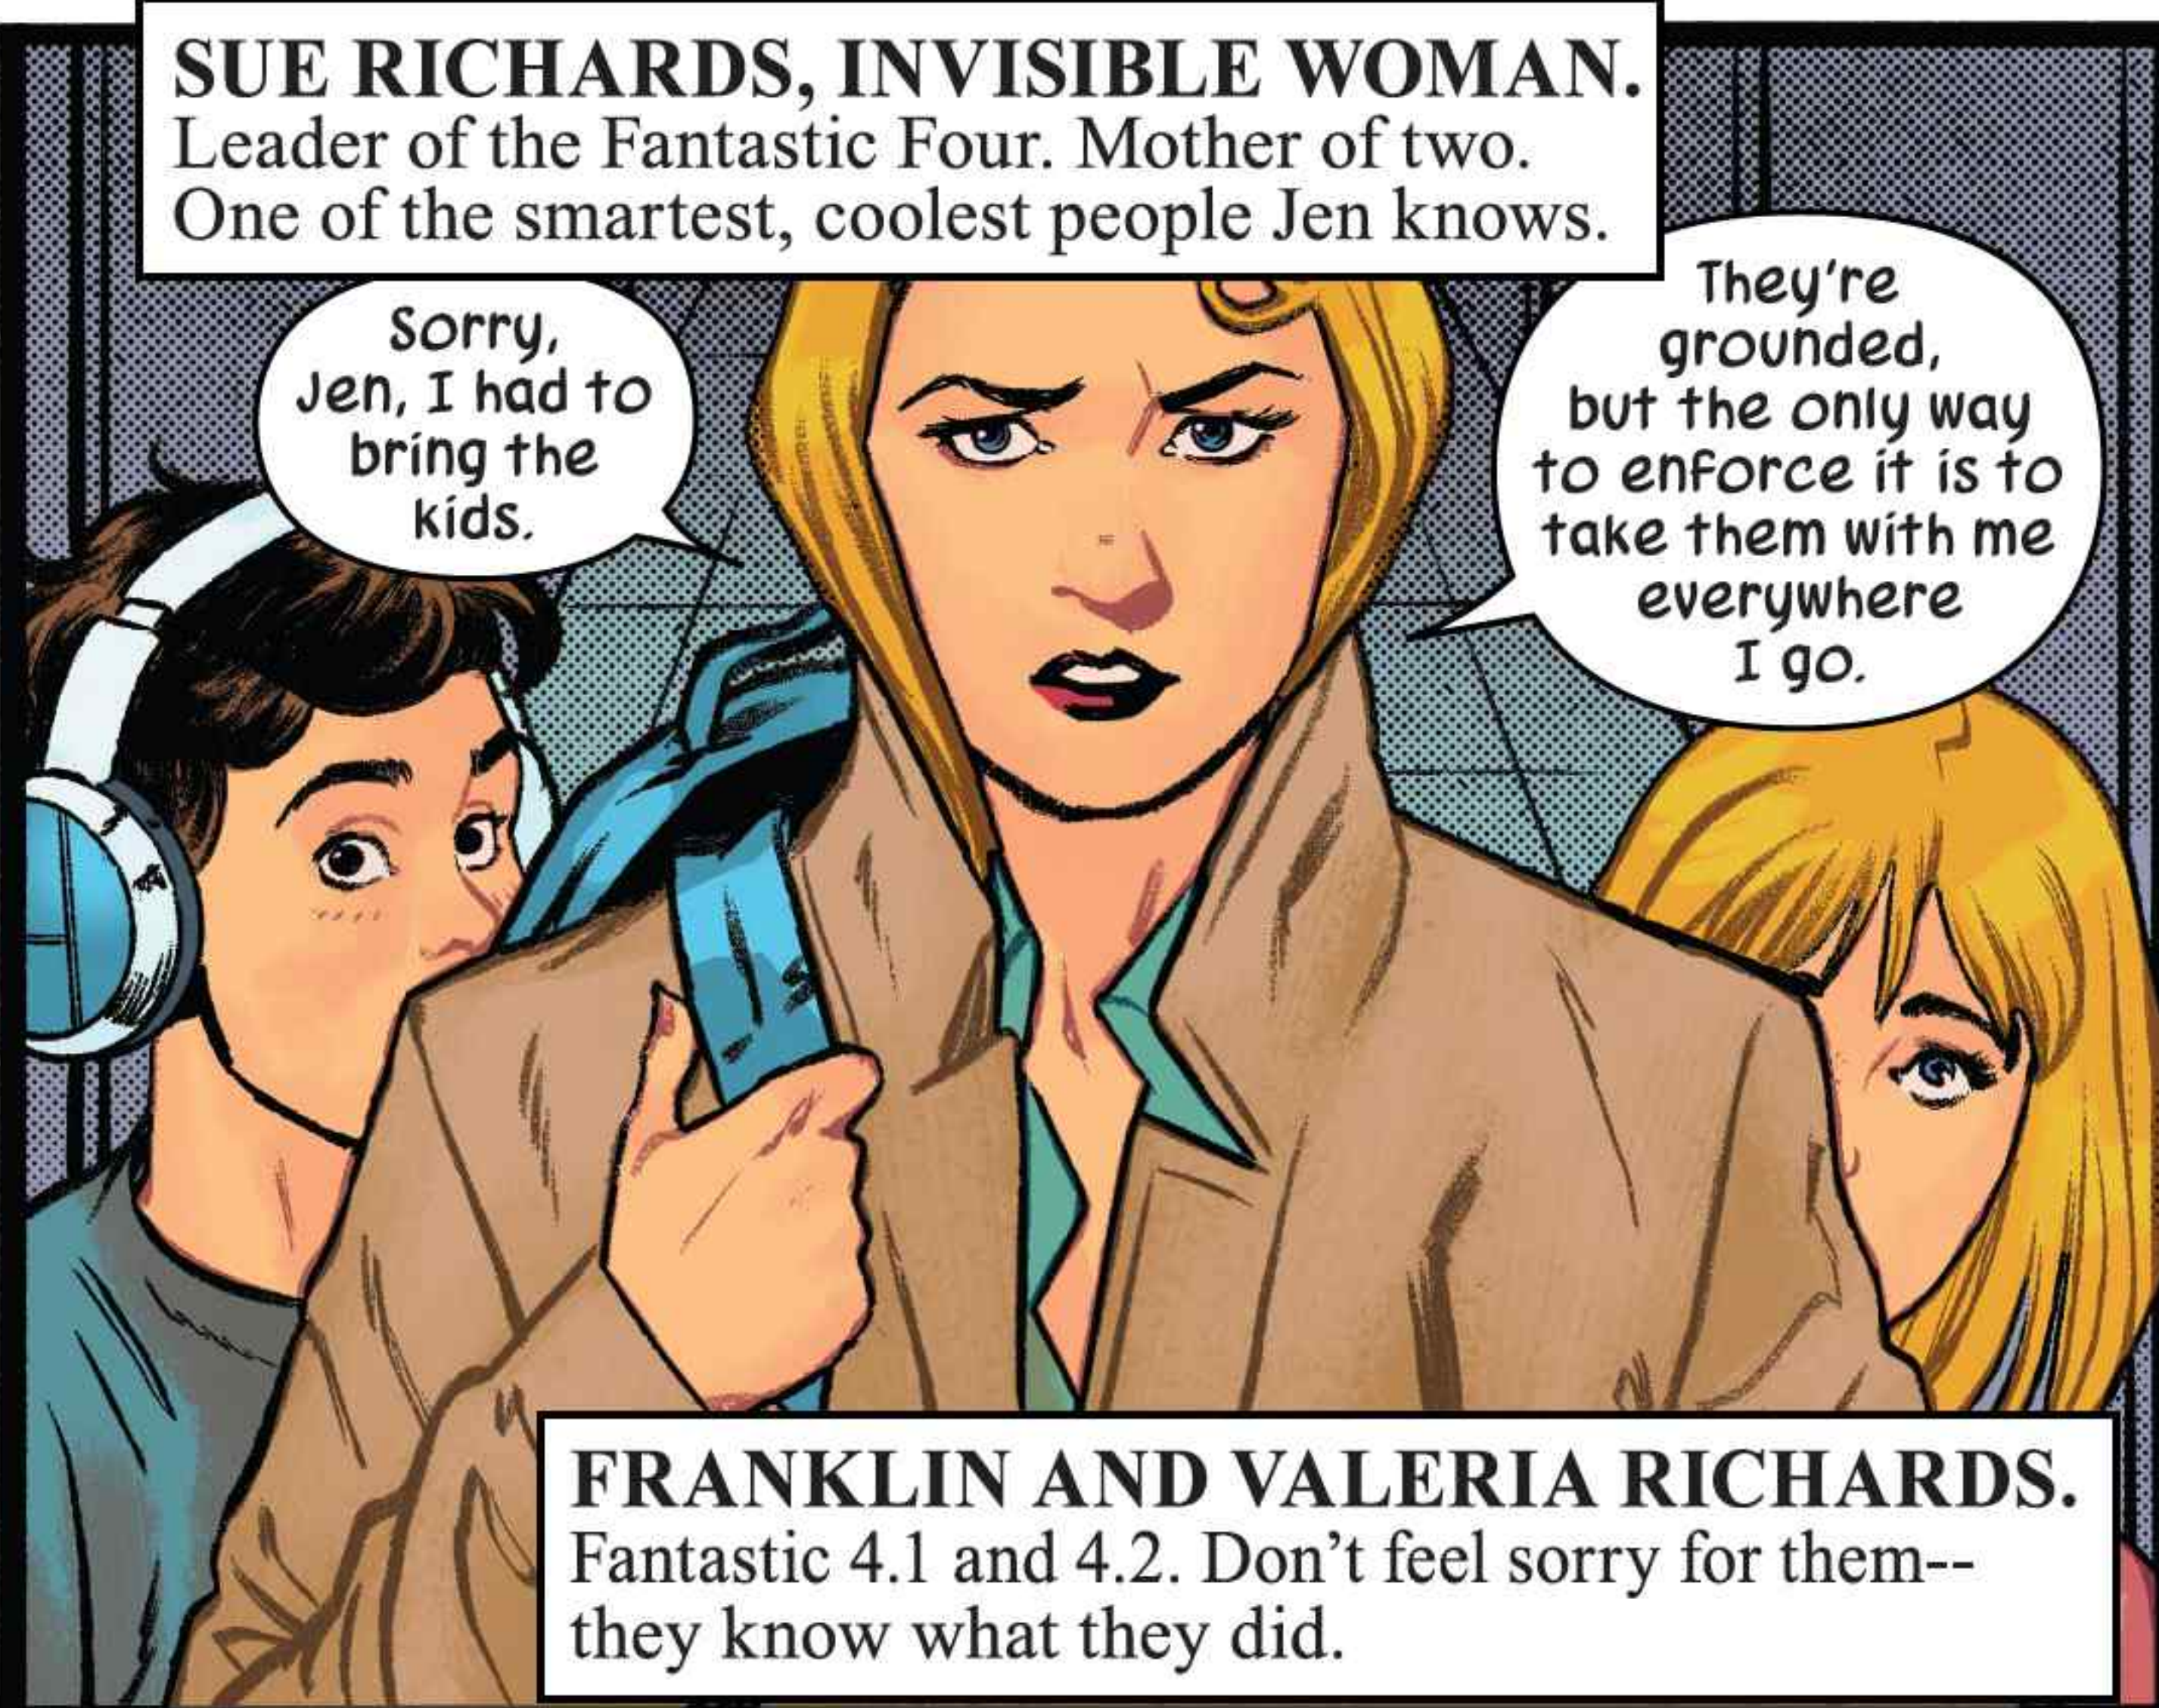

I don't do wine anymore. I'm veto.

Ugh, I could never be veto. I can't give up sea bass.

KNOCK-KNOCK!

SUE RICHARDS, INVISIBLE WOMAN.

Leader of the Fantastic Four. Mother of two. One of the smartest, coolest people Jen knows.

Sorry, Jen, I had to bring the kids.

They're grounded, but the only way to enforce it is to take them with me everywhere I go.

FRANKLIN AND VALERIA RICHARDS.

Fantastic 4.1 and 4.2. Don't feel sorry for them-- they know what they did.

Don't worry, they won't look up from their phones. They're going to sit in the corner and be so quiet--

They don't have to sit in the corner--

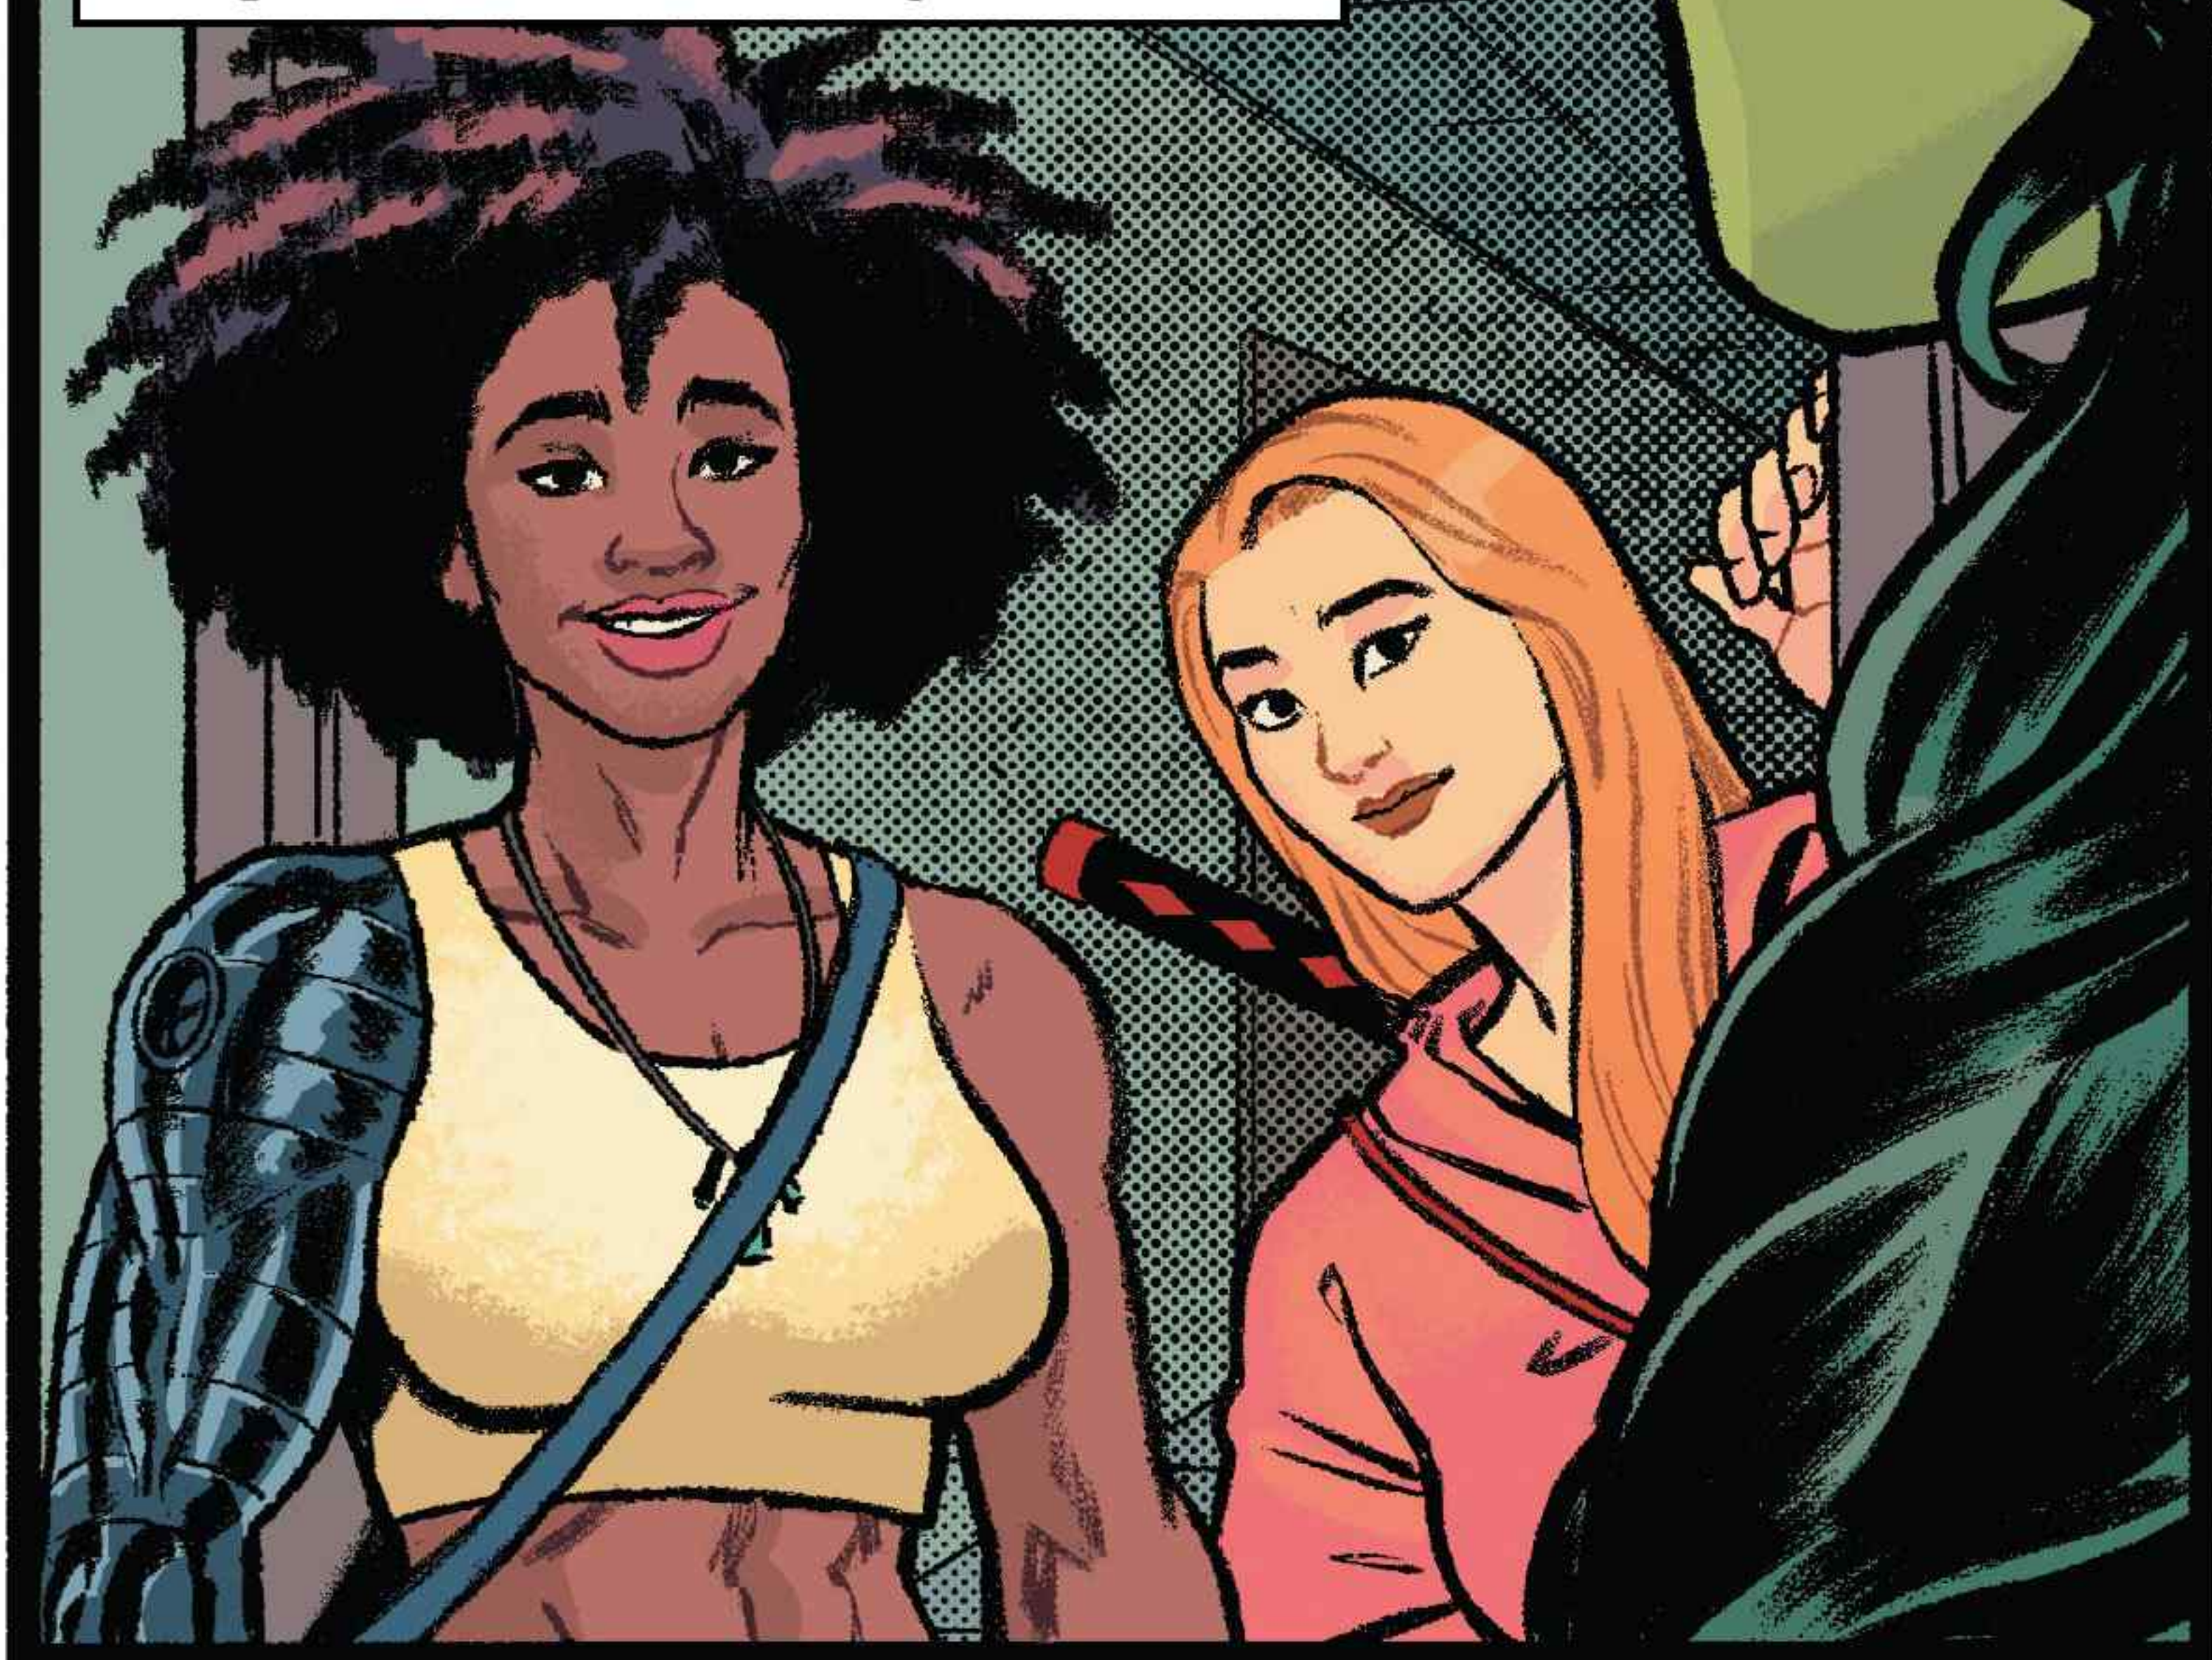

No. They do.

It's been a day.

Door's open. Can we come in?

MISTY KNIGHT AND COLLEEN WING, DAUGHTERS OF THE DRAGON.
Best friends, occasional bounty hunters, and partners-in-butt-kicking.

MARSHA ROSENBERG, VOLCANA.

Way nicer than the name
"Volcana" suggests.

Hey, Marsha.
Glad you could
make it.

**IS THAT
VOLCANA?!?!**

Guys,
no! Stand
down!

I invited Marsha. She's not facing any current charges-- and she's a real bookworm.

I brought chicken lettuce wraps.

A real bookworm, huh? Who else did you invite? M.O.D.O.K.?

She probably invited the Bookworm.

I hope so. There's a huge price on his head.

Do you know if they were vegan chickens?

Well, I found some of these family dynamics really challenging...

Like, when the shadow prince devoured his mother? What a great scene.

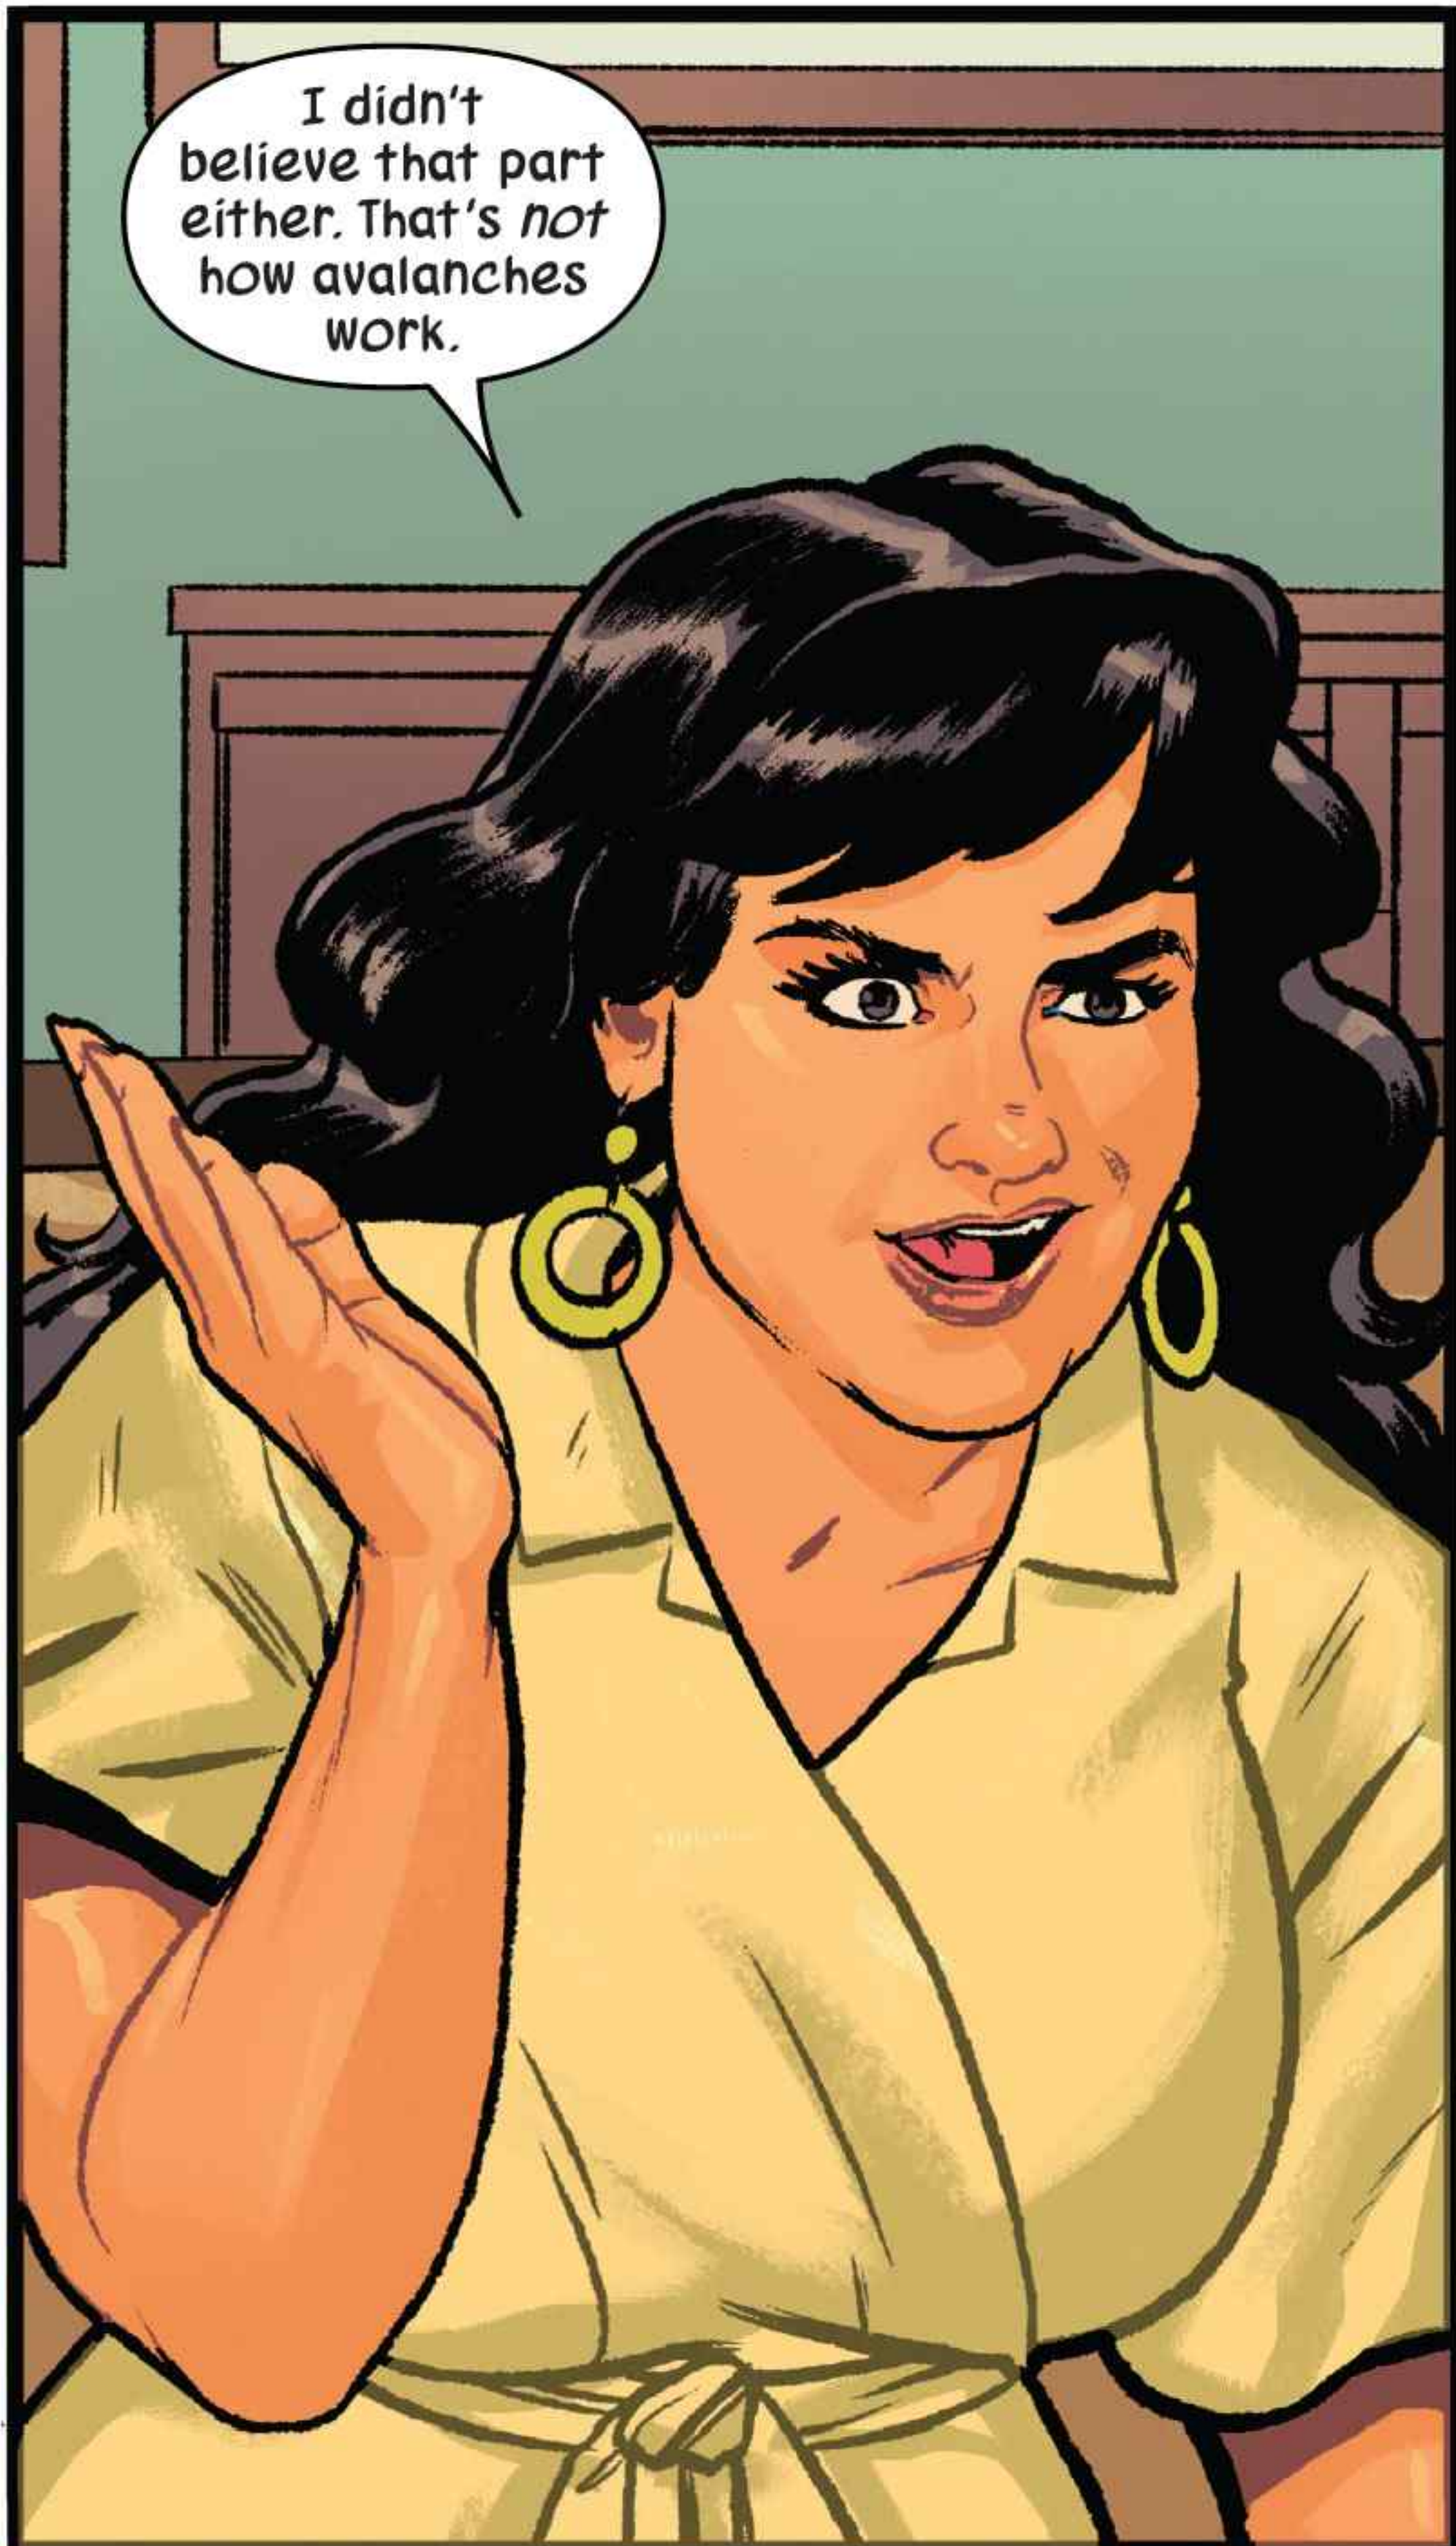

I didn't believe the shadow prince had the technology to wipe out that city.

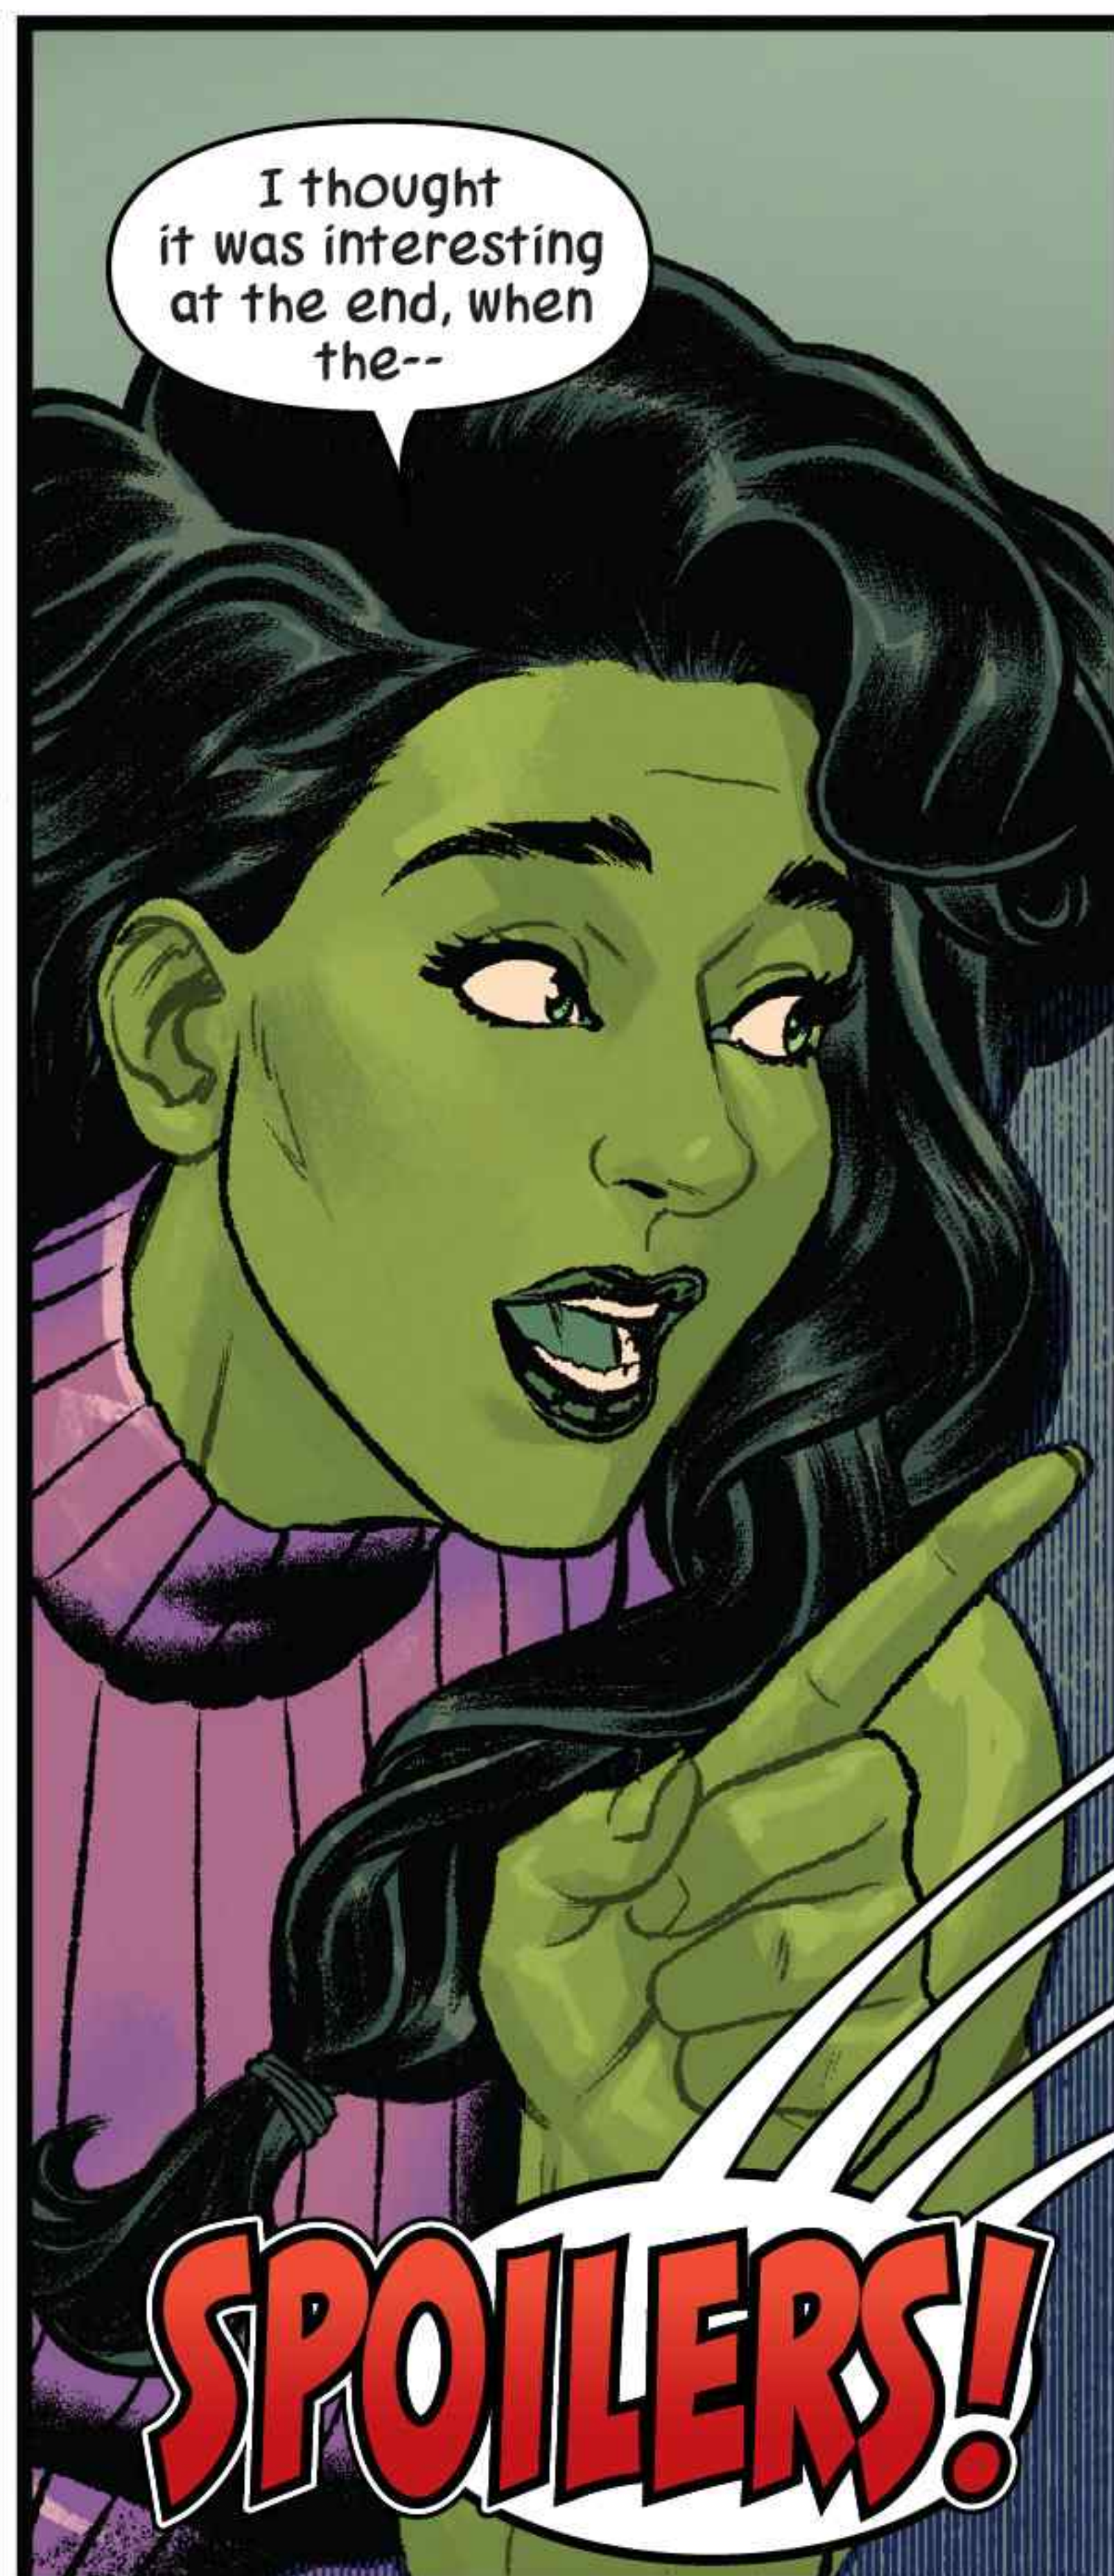

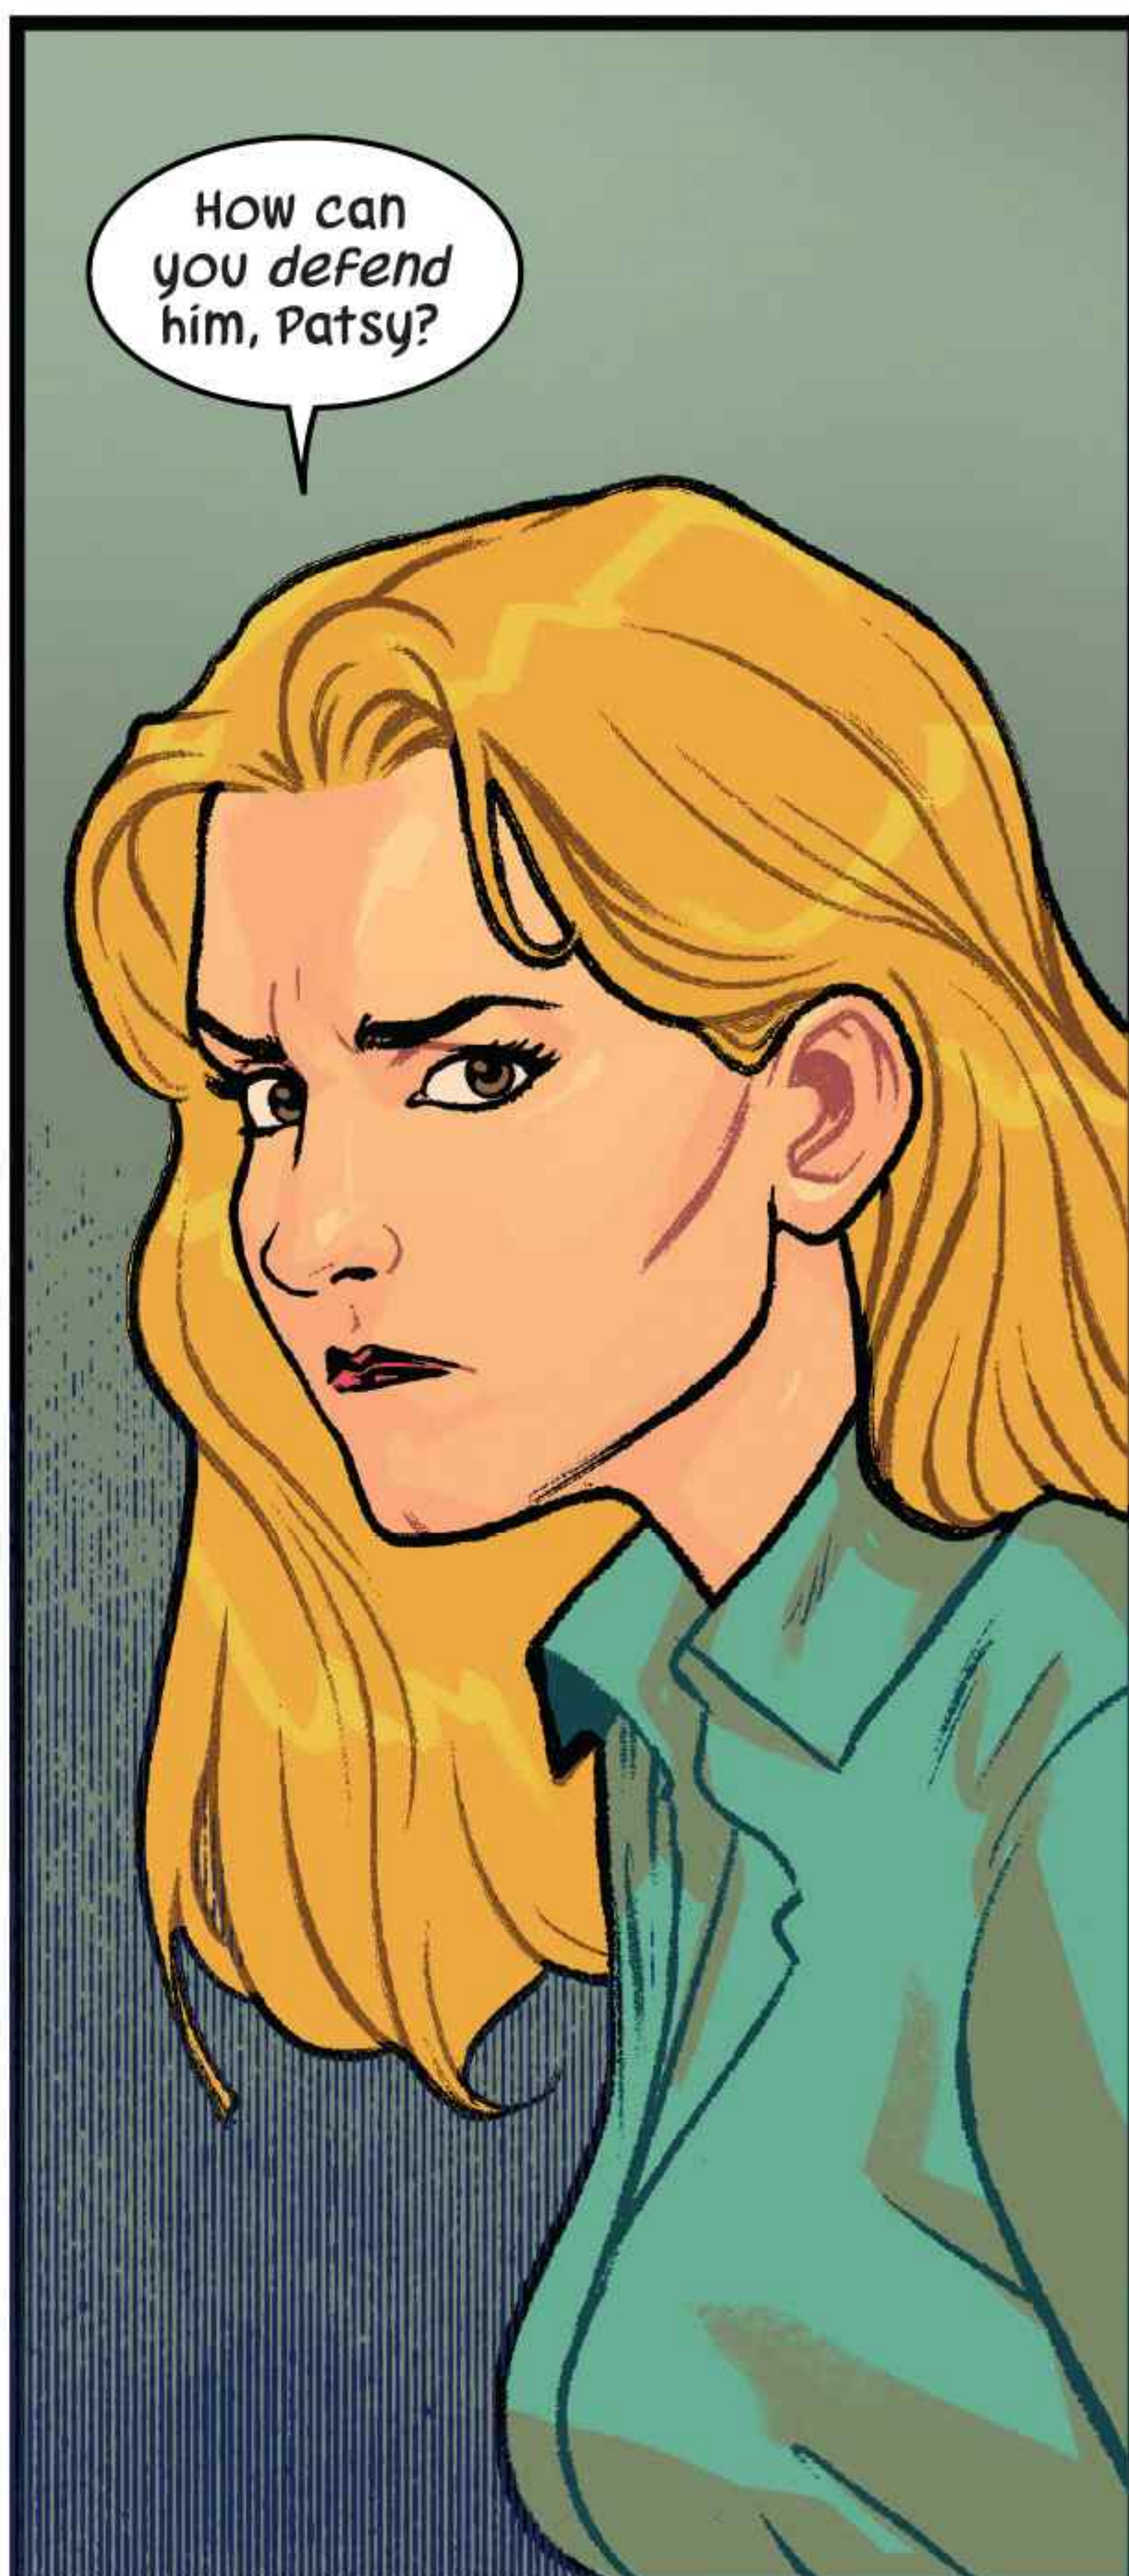

Spoilers!

It was magic.

Dumb magic. I couldn't suspend my disbelief.

I didn't believe that part either. That's *not* how avalanches work.

Sorry, Jen. It's been a day.

To be fair, I wasn't going to read any of it, but then I got sucked in.

For five years, I've been asking you to read *The Book of Five Rings*...

I couldn't get past the second ring!

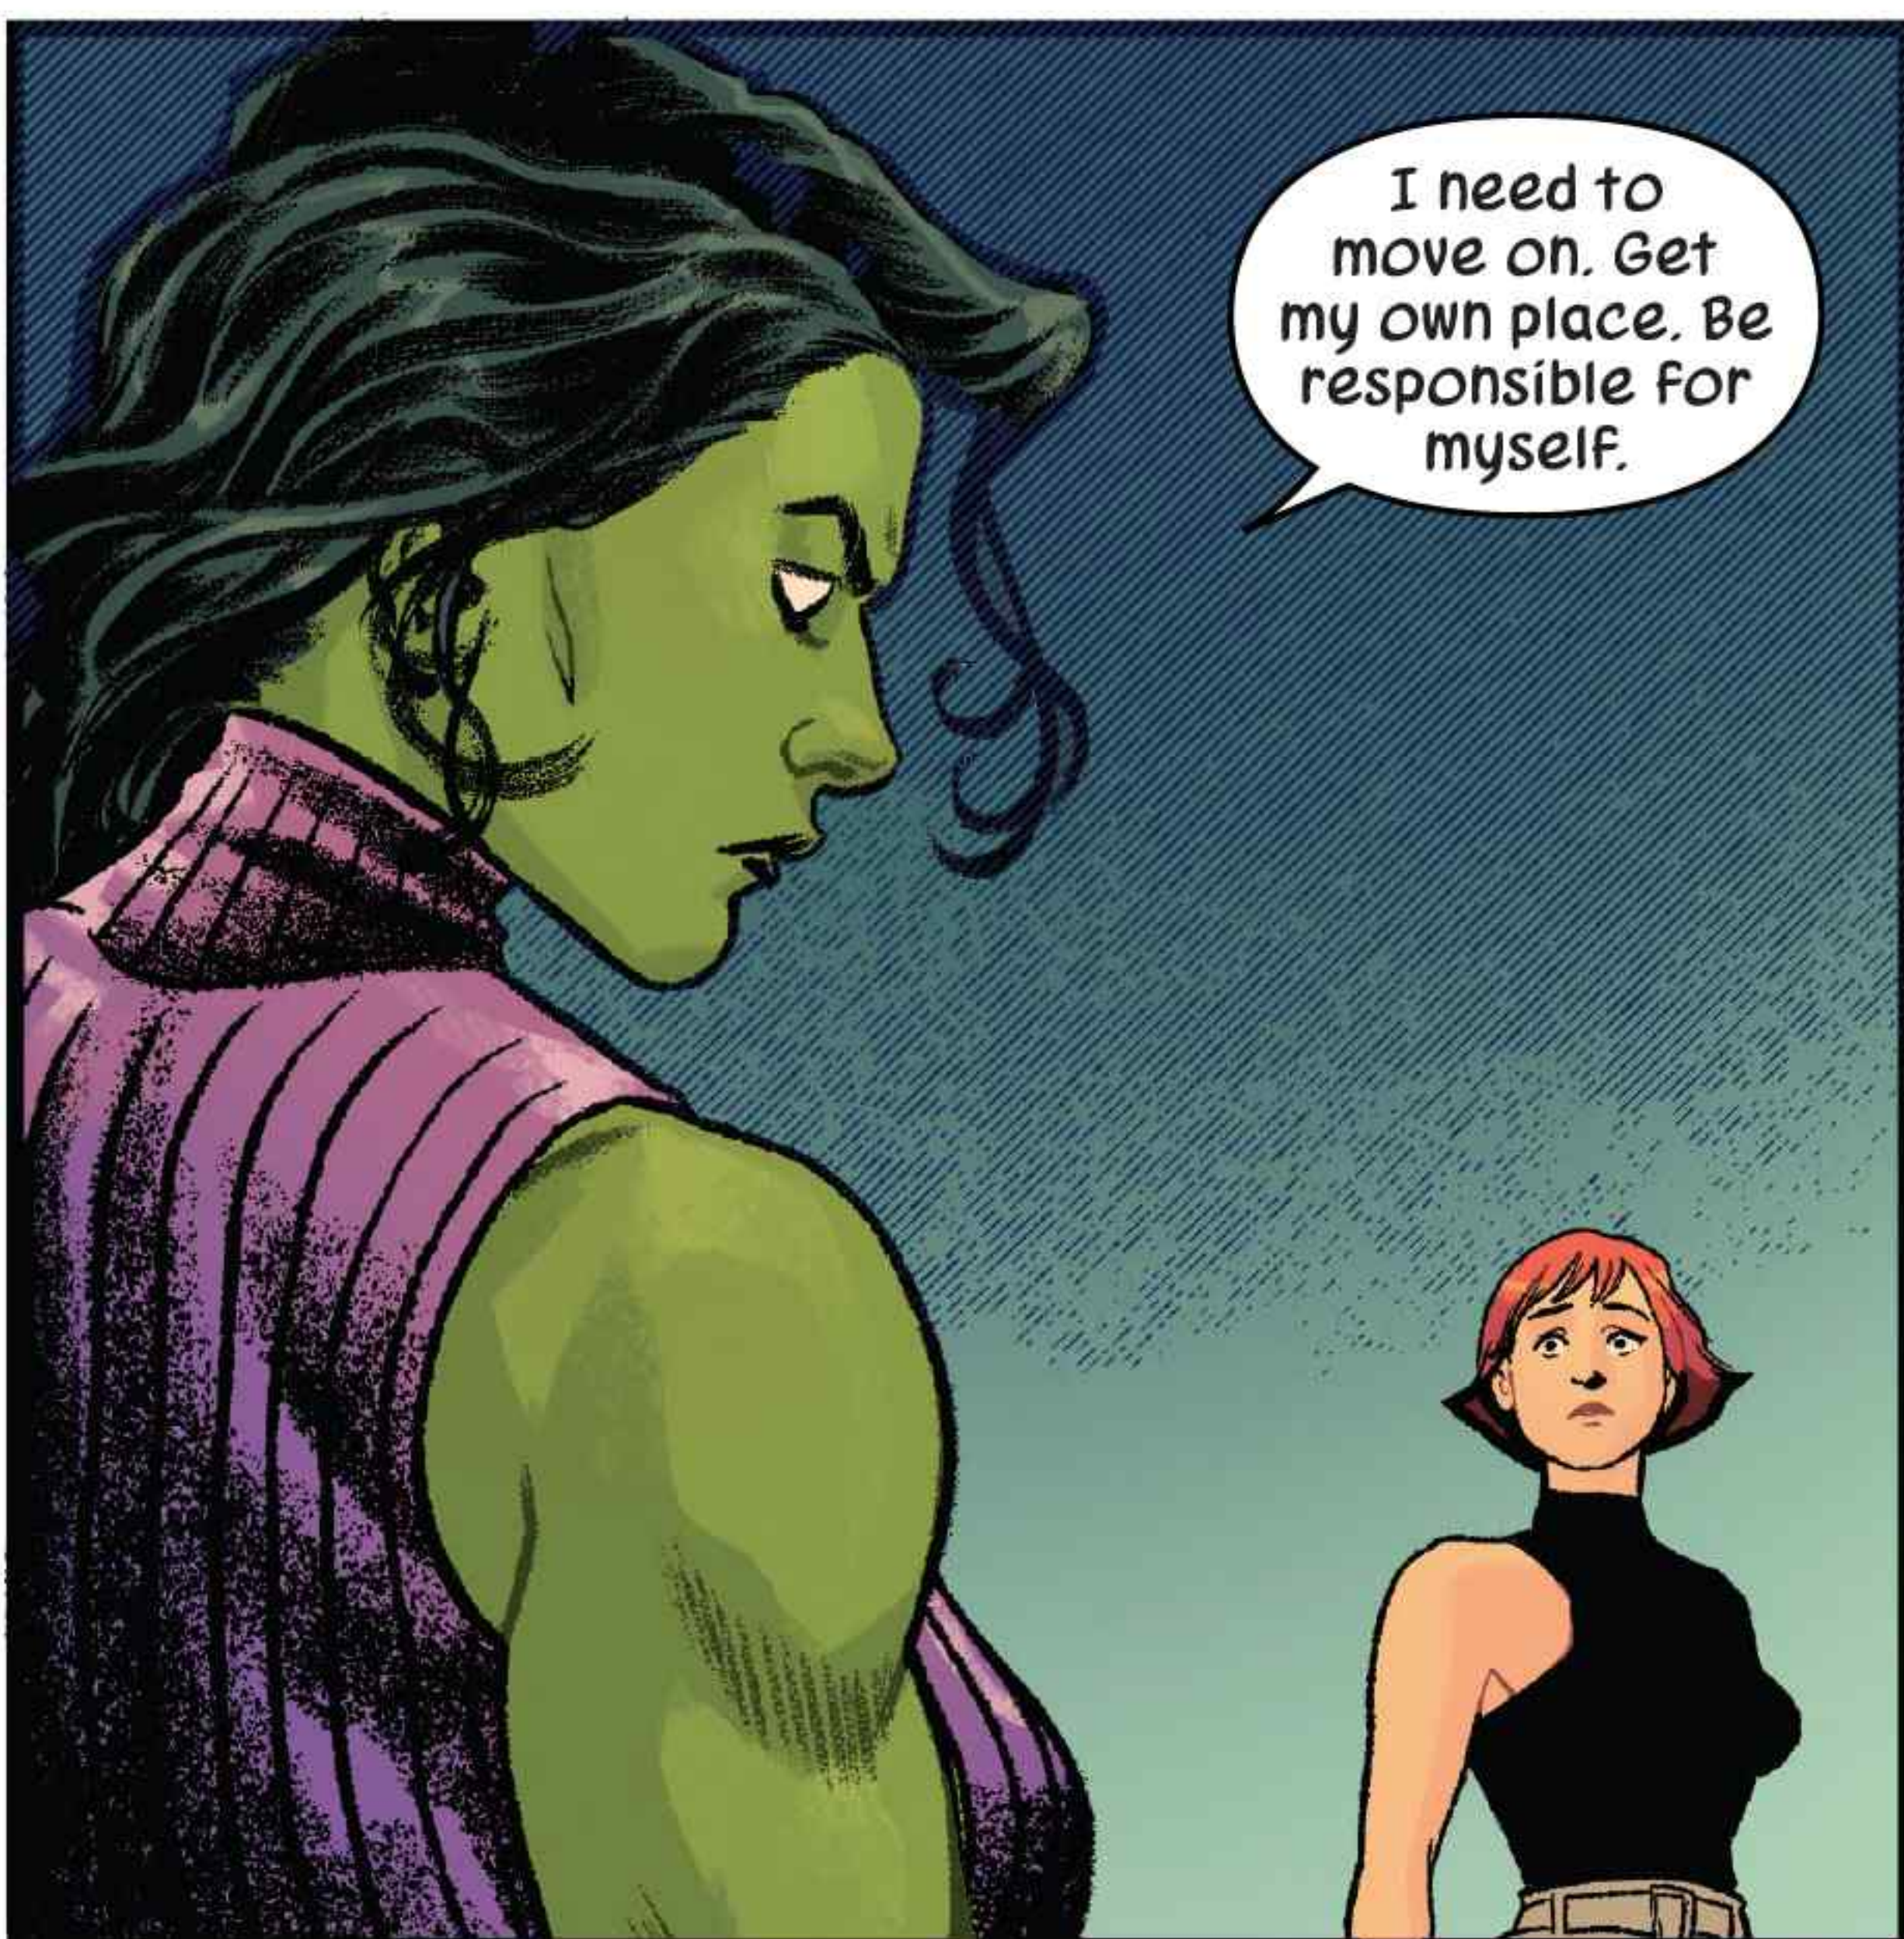

It's like poetry crossed with instructions for building a cabinet.

You have wounded me, babe. I am wounded.

Focus your chi. You'll heal.

Come on, Jan, I know how you see me...

You're always trying to take care of me. Make sure I'm dressed right. That I have a place to sleep.

I'm trying to repay my debt! I'm the one who dragged you into the Avengers!

You didn't have to drag me...

Jen, I see everything you've given up.

I have watched you sacrifice your own stability and security countless times--all for the greater good.

When the Avengers call, you always answer.

When your friends need you, you're always there.

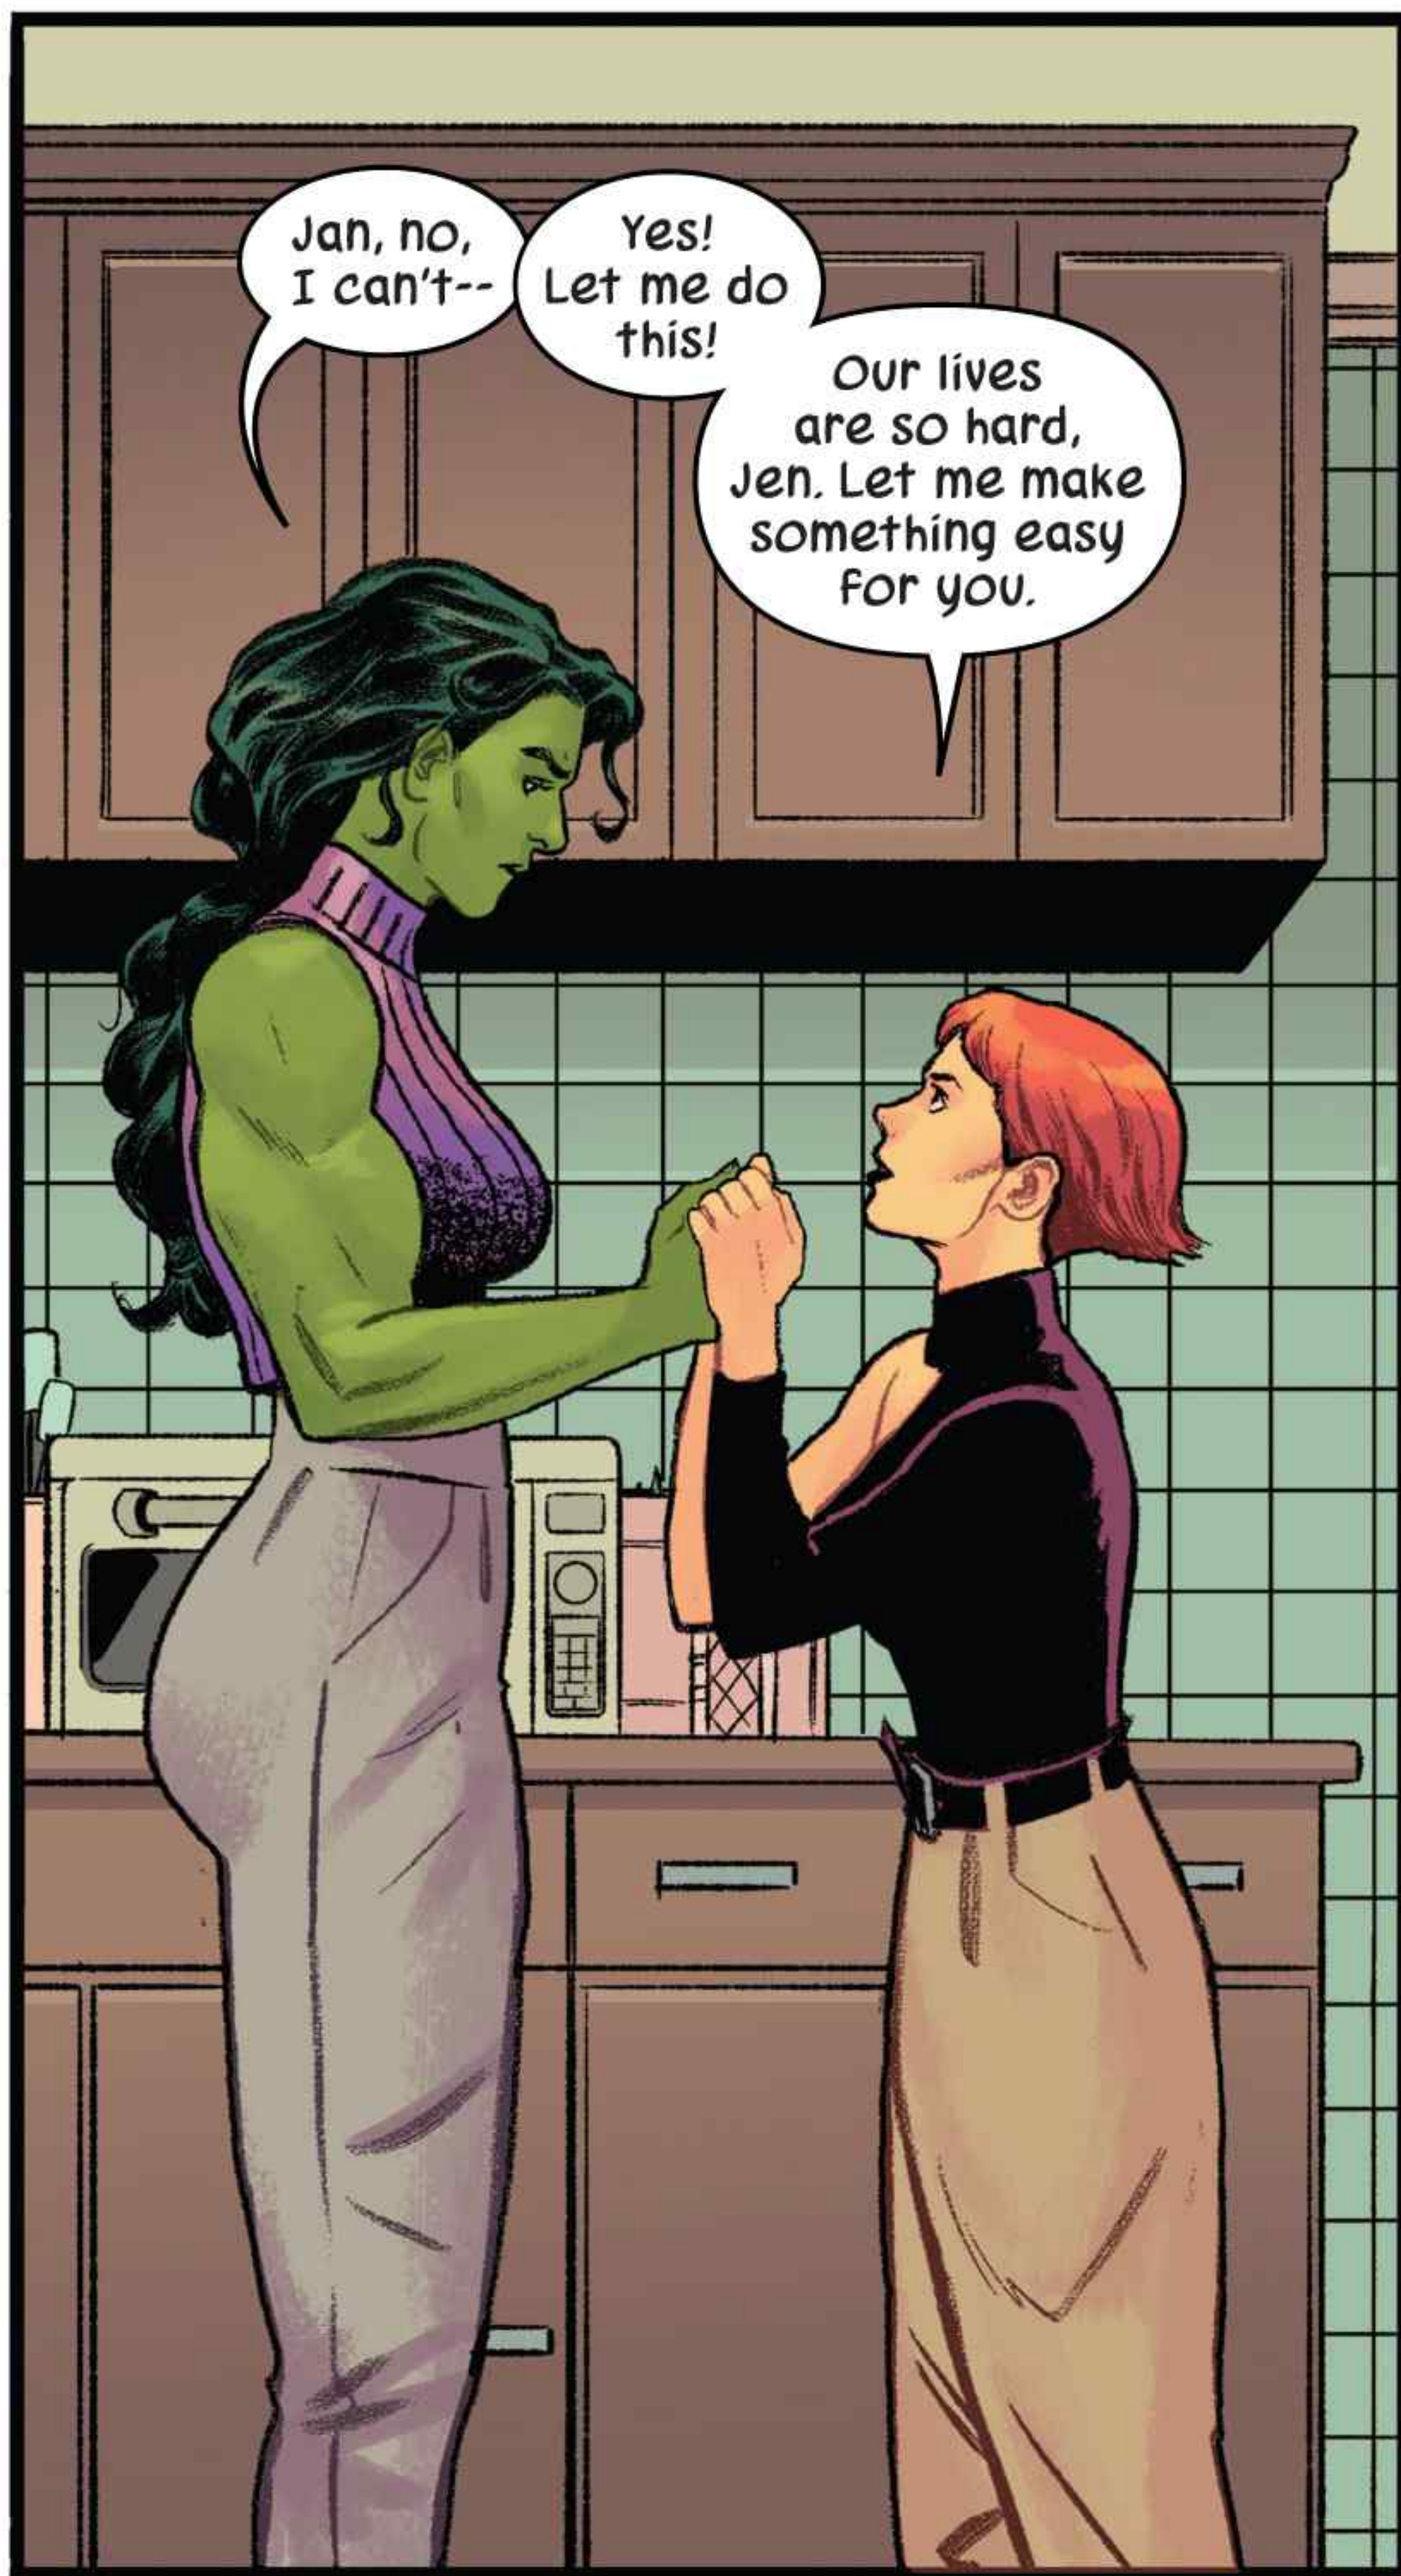

If you were living your life for yourself-- you'd be on the Supreme Court by now.

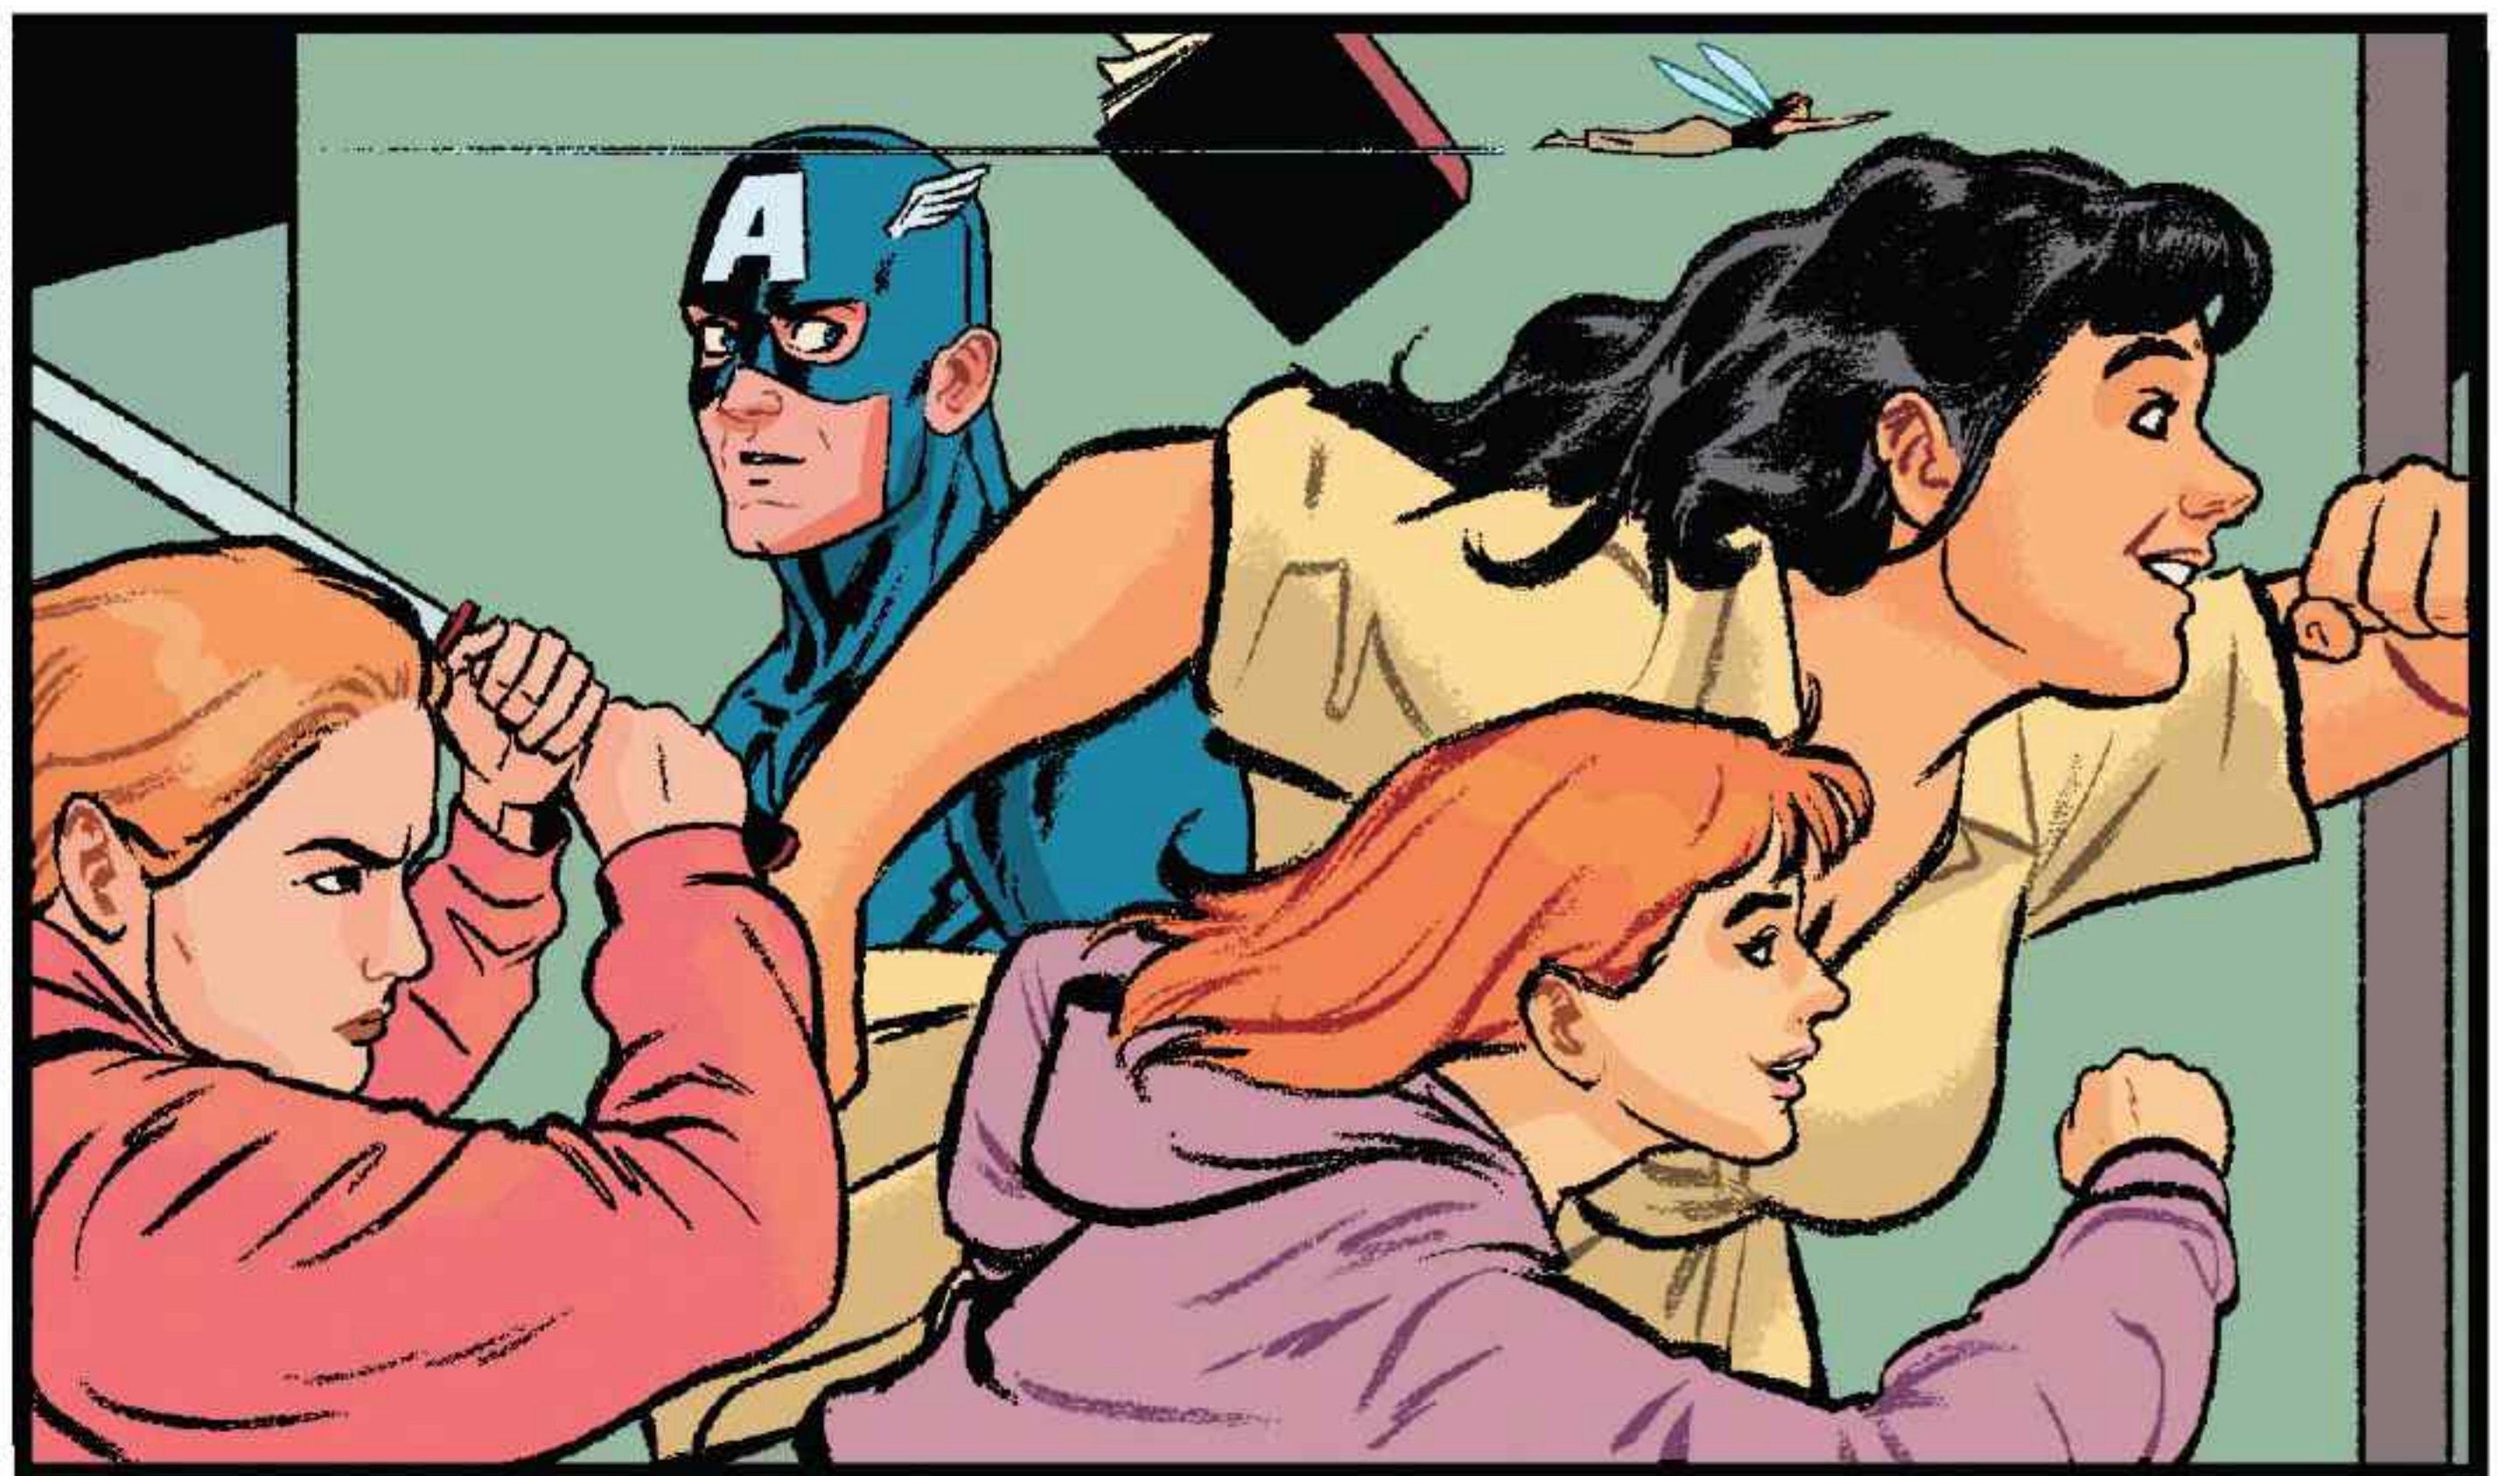

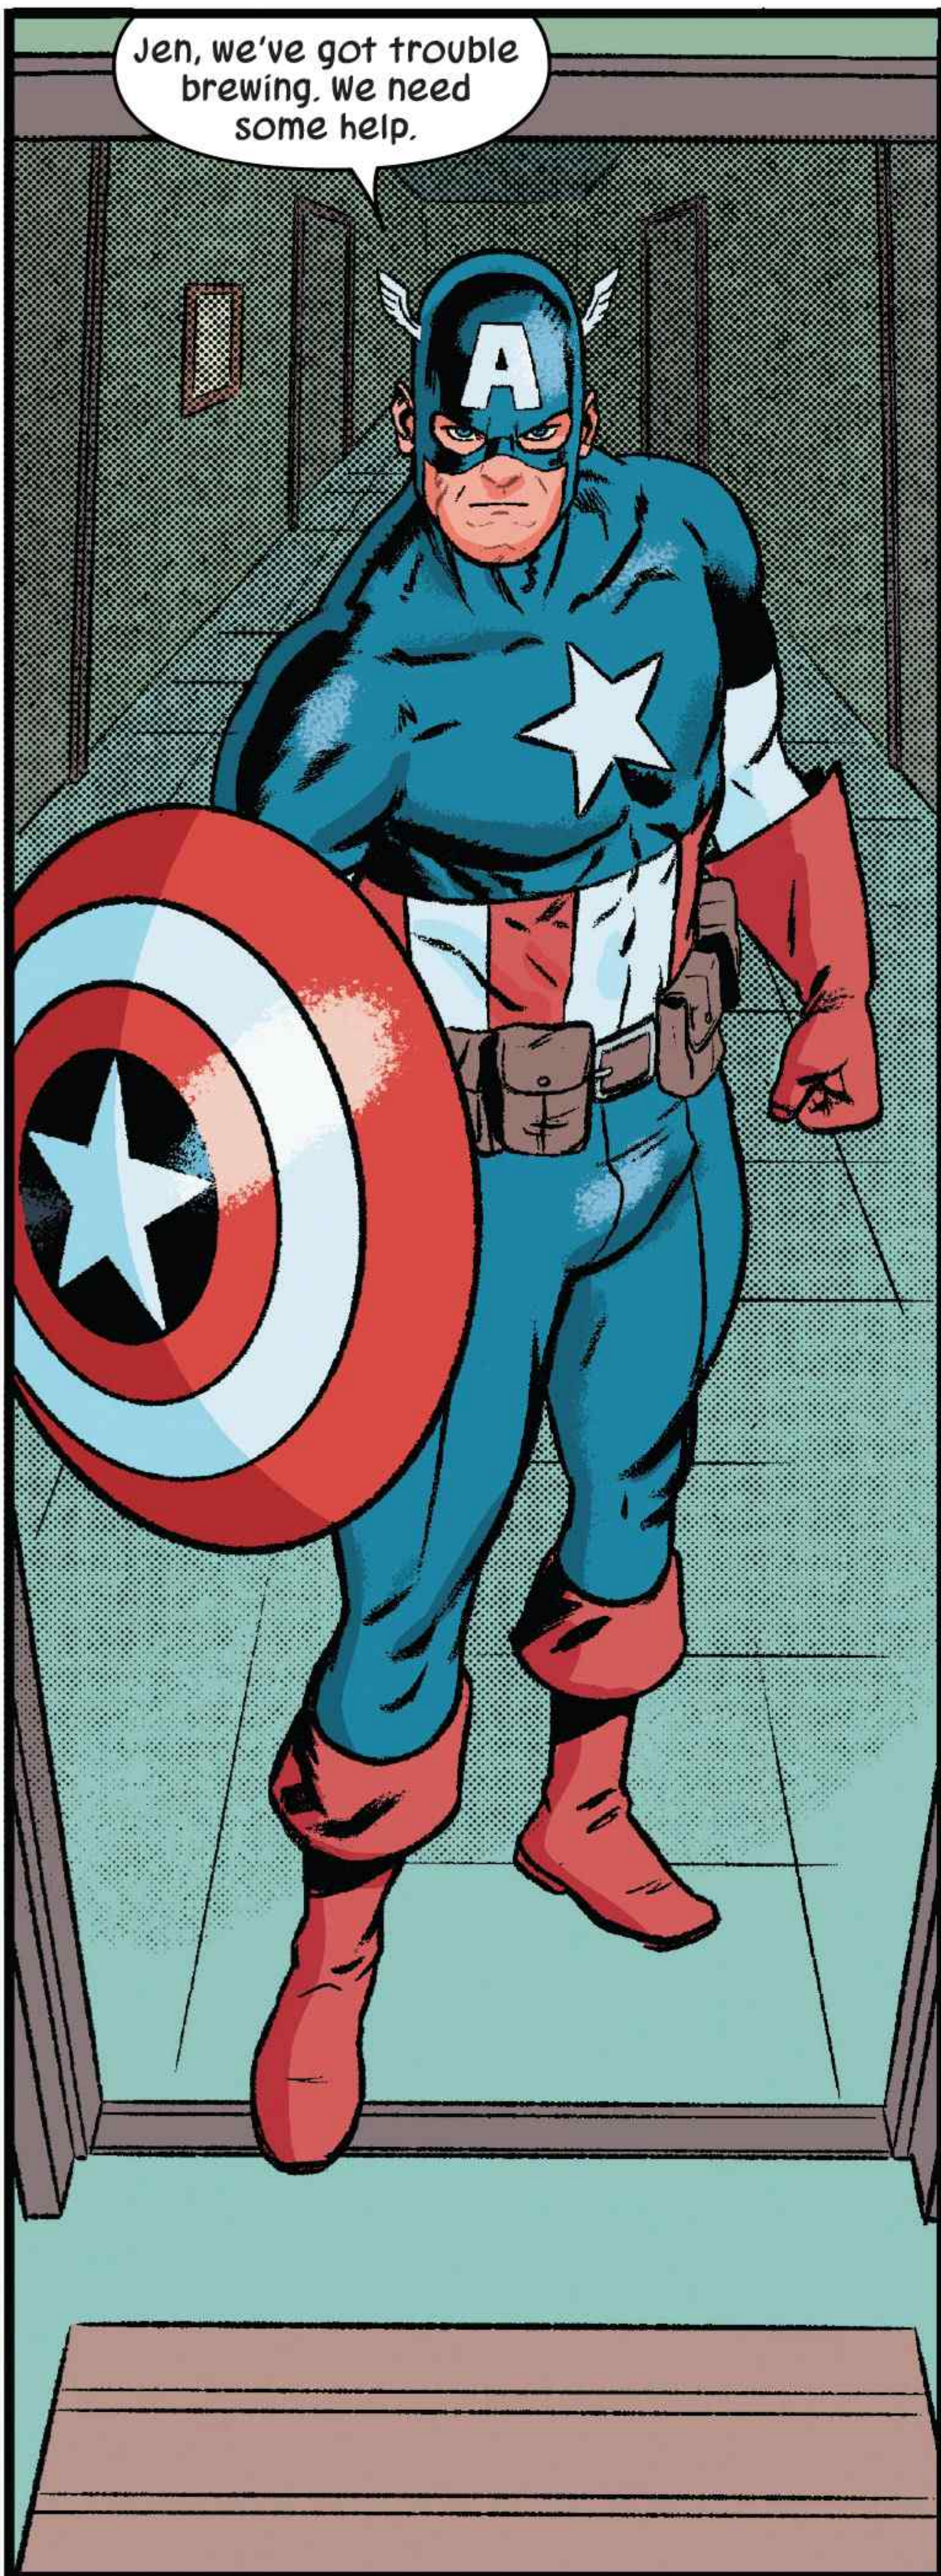

You'd have an apartment *twice* as fabulous as this.

You really have no idea how nice this apartment is, do you?

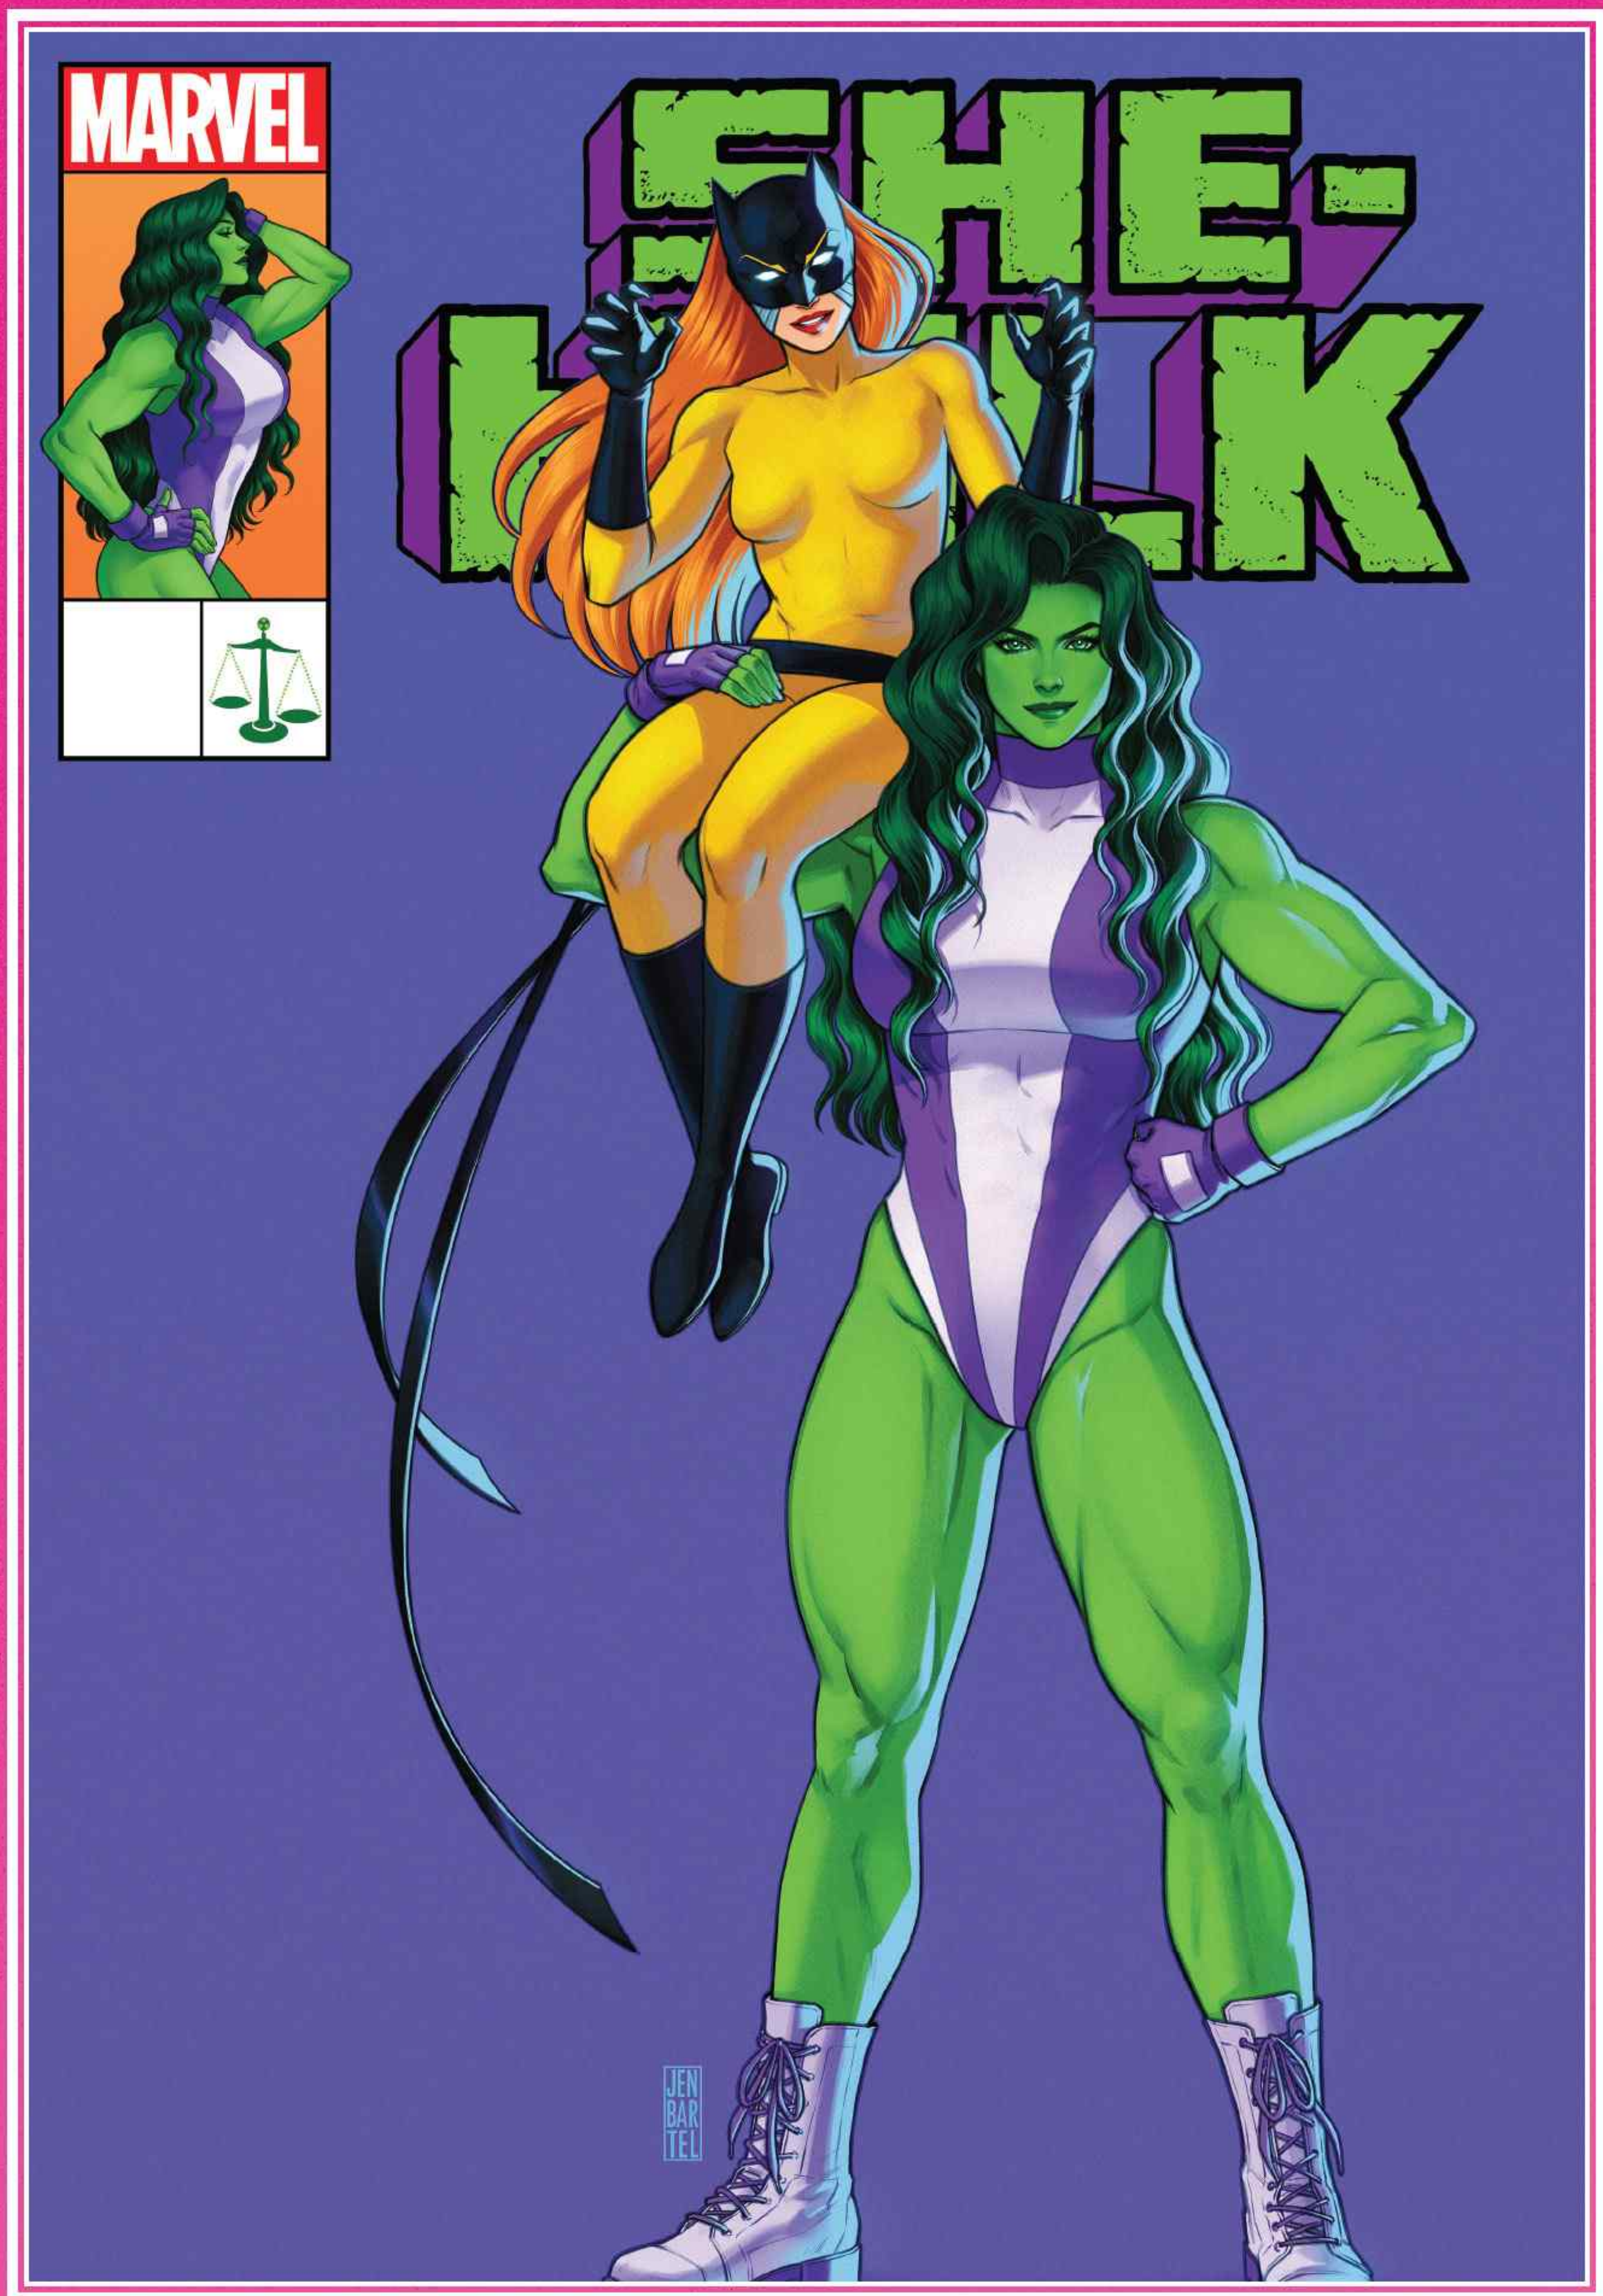

Well, it's yours now.

THE END.
